chemistry third edition by julia burdge offers a clear writing style written with the students in mind julia uses her background of teaching hundreds of general chemistry students per year and creates content to offer more detailed explanation on areas where she knows they have problems with outstanding art a consistent problem solving approach interesting applications woven throughout the chapters and a wide range of end of chapter problems this is a great third edition text

this second edition provides 2400 multiple choice questions on human anatomy and physiology and some physical science separated into 40 categories the answer to each question is accompanied by an explanation each category has an introduction to set the scene for the questions to come however not all possible information is provided within these introductions so an anatomy and physiology textbook is an indispensable aid to understanding the answers the questions have been used in end of semester examinations for undergraduate anatomy and physiology courses and as such reflect the focus of these particular courses and are pitched at this level to challenge students that are beginning their training in anatomy and physiology the question and answer combinations are intended for use by teachers to select questions for their next examinations and by students when studying for an upcoming test students enrolled in the courses for which these questions were written include nursing midwifery paramedic
