in the more than sixty years since the advent of nuclear weapons there has been little meaningful progress toward nuclear

disarmament some countries have nuclear weapons while other states are forbidden to acquire them a status quo that lacks rational basis and cannot be sustained in this remarkable collection scholars and policy analysts argue that humankind has a choice either allow nuclear weapons to continue to proliferate throughout the world or move toward their complete elimination the vast majority of people on the planet would surely opt to abolish nuclear weapons but decisions about nuclear weapons are not made by the public but by small groups of political elites consequently in a world with nuclear weapons the fate of humanity rests in the hands of a small number of individuals whose perceptions communications and judgment determine whether there is to be a future the contributors to this volume provide historical perspective on nuclear weapons policy explore the role of international law in furthering the prospects of nuclear weapons abolition consider the obstacles to abolition present a path to achieving a nuclear weapons free world and look beyond abolition to consider issues of post abolition sovereignty and general and complete disarmament the goal of a nuclear weapons free world can be awakened by an engaged citizenry bringing pressure from below in demanding action from political leaders this book contributes to this awakening and engagement

sustainability challenges universities around the world to rethink their missions and to re structure their courses research programs and life on campus graduates are increasingly exposed to notions of sustainability which are emotionally politically ethically and scientifically charged they must be able to deal with conflicting norms and values uncertain outcomes and futures and a changing knowledge base at the same time they will need to be able to contextualize knowledge in an increasingly globalized society this book provides a variety of valuable theoretical and practical resources for students teachers researchers and administrators who seek to integrate sustainability in higher education sustainability is not only explored as both an outcome and a process of learning but as a catalyst for educational change and institutional innovation the book raises the various problematics related to this inchoate field and provides an intellectual history and critical assessment of the prospects for institutionalizing sustainability in higher education

muslims hindus buddhists and adherents of other non western religions have become a significant presence in the united states in recent years yet many americans continue to regard the united states as a christian society how are we adapting to the new diversity are we willing to do the hard work required to achieve genuine religious pluralism award winning author robert wuthnow tackles these and other difficult questions surrounding religious diversity wuthnow contends that responses to religious diversity are fundamentally deeper than polite discussions about civil liberties and tolerance would suggest rather he writes religious diversity strikes at the very core of our personal and national theologies only by understanding this important dimension of our culture will we be able to move toward a more reflective religious pluralism from publisher s description
