browse an online sample copy of the atlas read an interview with author michael farmer download sample map 30 download sample map 78 the atlas shows for the first time the contemporary geography of the entire tibetan plateau an area where major powers china india and pakistan meet in the highest landscape on earth originally inhabited by the unique ancient buddhist civilization of tibet using extensive satellite imagery the author has accurately positioned over two thousand religious locations more than a third of which appear not to have not been previously recorded nearly two thousand settlements have also been accurately located and all locations are named in both tibetan and chinese where possible this ancient landscape is shown in contrast to the massive physical infrastructure which has been recently imposed on it as an attempt to open up the west and carry forward the chinese belt and road initiative with 120 maps in full colour

with a multi perspective approach and transdisciplinary methods humanities and sciences this book offers an in depth and systematic study of hand drawn and hand coloured maps from east asia map colouring provides an insight into past societies landscapes and territories colour is an important key to a more precise understanding of the map s content purposes and uses moreover colours are also an important aspect of a map s materiality the material scientific analysis of colourants makes it possible to find out more about maps material nature and their production as well as the social geographical and political context in which they were made reading colours in this way gives a glimpse into the social lives of mapmakers as well as map users and reveals the complexity of the historical and social context in which maps were

produced and how the maps were actually made

geological formation names of china 1866 2000 is the only catalogue on stratigraphic nomenclature for china in the world to keep two writing types wade giles romanization and chinese phonetic alphabet so as to provide convenience for domestic and overseas readers the catalogue is intended for specialists and graduates in geosciences and stratigraphy shouxin zhang 1927 2006 was stratigrapher and research professor at the institute of geology and geophysics chinese academy of sciences

this book explores the concept of geo architecture by analyzing the ways architectures are related to the local geography including mingling or contrasting with surrounding landscape adapting to mountainous or aquatic terrain and selection of construction materials architectures build with such skillfully contrived strategies and techniques have become live exhibit of folk customs and served to record in profound detail the long history of mankind s recognition of nature the combined effect is such that the architecture grows out of the surrounding natural and human environment this book is the third of a 4 volume book series the series develops the innovative concept of geo architecture by exploring the myriad influences of natural human and historical factors upon architecture these influences are considered in three categories namely interaction between architecture and nature interaction between architecture and its human users and change in architecture over time each category serves as a lens augmenting these lenses is the time person place concept applied different geographic the analysis ultimately focuses on two aspects geographic influence on architecture and architectural response to geography the over 1000 pictures of case architectures enriches the study with stunning and unique visual angles this unprecedented work will be a unique and valuable contribution to the literature integrating as it does the disciplines of architecture landscape architecture and geography wang fang s voice is original compelling and will be much appreciated by english speaking readers and inside china too i can only imagine stephen m ervin assistant dean graduate school of design harvard university july 2nd 2013 one reason for why there would be interest is because her research would fill some significant gaps in the literature what is novel about dr wang s series is that she further extends this intellectual project of looking at chinese architecture through chinese eyes by taking it one provocative step further annette m kim associate professor department of urban studies and planning m i t july 1st 2013

ethnic tourism has emerged as a means that is employed by many countries to facilitate economic and cultural development and to assist in the preservation of ethnic heritage however while ethnic tourism has the potential to bring economic and social benefits it can also significantly impact traditional cultures ways of life and the sense of identity of ethnic groups there is growing concern in many places about how to balance the use of ethnicity as a tourist attraction with the protection of minority cultures and the promotion of ethnic pride despite the fact that a substantial literature is devoted to the impacts of ethnic tourism little research has been done on how to plan ethnic tourism attractions or to manage community impacts of tourism this book addresses the need for more research on planning for ethnic tourism by exploring the status and enhancement of planning strategies for ethnic tourism development the book develops the case of a well known ethnic tourist destination in china xishuangbanna yunnan it analyzes how ethnic tourism has been planned and developed at the study site and examines associated socio cultural and planning issues the authors evaluate the perspectives of four key stakeholder groups the government tourism entrepreneurs ethnic minorities and tourists on ethnic tourism through on site observation interviews with government officials planners and tourism entrepreneurs surveys of tourists and ethnic minority people and evaluation of government policies plans and statistics this book is unique in its emphasis on planning and in its focus on china rapidly emerging as a major player in tourism with applications for tourism around the world

the allocation of resources and the design of policies tailored to local level conditions require highly disaggregated information data on poverty at the local level is typically not available because most household surveys are not representative past the regional level this volume

aims to promote the effective use of small area estimation poverty maps in policy making it presents the range of policies and interventions which have been informed by poverty maps focusing on the political economy of poverty maps and the key elements to their effective use by policy makers the volume also looks at the future of poverty maps in terms of new techniques and new areas of application

since the 1990s regional organizations of the united nations and international financial institutions have adopted a new dynamic of transnational integration within the framework of the regionalization process of globalization in place of the growth triangles of the 1970s a strategy based on transnational economic corridors has changed the scale of regionalization

this title was first published in 2002 changing economic institutional and market environments have turned the spatial inter relationships thought to exist in china upside down through an investigation of the beef industry this text builds a picture of where regionalization and integration are heading in china it examines the impacts of market forces industry characteristics relative factor endowments and government influence on the spatial organization of activities it reveals the influence of government as priorities are re assessed and as markets and industries develop as well as exploring the extent of regional co ordination and co operation and how central and local government policies and strategies reconcile the volume also contains regional assessments of the beef industry in 12 key producing provinces and the key consumption areas of beijing shanghai and hong kong

studies china s ethnic classification project minzu shibie of 1954 conducted in yunnan province

this deeply informed and clearly written text provides a comprehensive and comprehensible history of china from prehistory to the present now updated to include recent political events and scientific research the book focuses on the interaction of humans and their environment tracing changes in the physical and cultural world that is home to a fifth of humankind robert b marks illuminates the paradoxes inherent in china s environmental narrative demonstrating how historically sustainable practices can in fact be profoundly ecologically unsound the author also reevaluates china s traditional heroic storyline highlighting the marginalization of nature and contacts with other peoples that followed the spread of chinese civilization while examining the development of a distinctly chinese way of relating to and altering the environment unmatched in his ability to synthesize a complex subject clearly and cogently marks has written an accessible yet nuanced history for any student interested in china past or present or indeed in the world s environmental future

this volume ties together the histories of japan and china for the modern period prior to the 20th century the chapters look at chinese and japanese works which were written in response to events in the other country none of these works has received any sustained attention in the west as a result we get a view of how chinese and japanese saw each other at a time when

there were few personal contacts allowed many of these texts were built on fanciful embellishments of stories that migrated from one land to the other but the unique qualities of the sino-japanese cultural bond seem to have conditioned the interaction so that these texts all reveal a fascinatingly well defined area
