david alan black has been one of the leading voices in new testament studies over the last forty years his contributions to greek grammar textual criticism the synoptic problem the authorship of hebrews and many more have challenged scholars and students to get into the text of the new testament like never before and to rethink the status quo based on all the evidence the present volume consists of thirteen studies written by some of black s colleagues friends and former students on a number of new testament topics in honor of his successful research and teaching career not only do they address issues that have garnered his attention over the years they also extend the scholarly discussion with up to date research and fresh evaluations of the evidence making this book a valuable contribution in itself to the field that black has devoted

himself to since he began his career

this is a history of the spanish bible it is an introduction covering almost every spanish version of the bible until 2014

an ever growing number of christians are becoming more and more uncomfortable with the tenets of the church the stories of the bible and the church s worldview statistics show that these feelings easily escalate into a crisis of faith and for now their predicament is being resolved by leaving the church this book will certainly help dealing with the crisis by showing that the language of faith is built by a web of metaphors taken from the ancient near east we do not need to take biblical language literally but as parables for human values in need to be assessed critically

the hebrew bible and art reside at the core of this book which analyzes the iconographic representation of several women of the bible the contributors consider the ways in which the biblical texts regarding these women had been read and understood throughout time and the means by which they were represented each study also explores the different values associated with these representations according to the problems worries and concerns of each period drawing upon disciplines such as theology philology or history of art the essays within this volume provide a cross sectional plural and rich approach in focusing upon iconographic representation numerous visual cultures of the last millennium are explored and special emphasis is placed upon several integral biblical women such as bathsheba moses mother the pharaoh s daughter ruth naomi and deborah and their lasting influence upon western art and culture this book pursues an understanding of the history of the transmission and reception of the bible in general and of the women of the old testament in particular

the bible is one of the books that has aroused the most interest throughout history to the present day however there is one topic that has mostly been neglected and which today constitutes one of the most emblematic elements of the visual culture in which we live immersed the language of colour colour is present in the biblical text from its beginning to its end but it has hardly been studied and we appear to have forgotten that the detailed study of the colour terms in the bible is essential to understanding the use and symbolism that the language of colour has acquired in the literature that has forged european culture and art the objective of the present study is to provide the modern reader with the meaning of colour terms of the lexical families related to the green tonality in order to determine whether they denote only color and if so what is the coloration expressed or whether together with the chromatic denotation another reality inseparable from colour underlies along with the chromatic denotation there is another underlying reality that is inseparable from colour we will study the symbolism

that which underpins some of these colour terms and which european culture has inherited this lexicographical study requires a methodology that allows us to approach colour not in accordance with our modern and abstract concept of colour but with the concept of the ancient civilisations this is why the concept of colour that emerges from each of the versions of the bible is studied and compared with that found in theoretical reflection in both greek and latin colour thus emerges as a concrete reality visible on the surface of objects reflecting in many cases not an intrinsic quality but their state this concept has a reflection in the biblical languages since the terms of colour always describe an entity in this sense one can say that they are embodied and include within them a wide chromatic spectrum that is they are mostly polysemic structuralism through the componential analysis although providing interesting contributions had at the same time serious shortcomings when it came to the study of colour these were addressed through the theoretical framework provided by cognitive linguistics and some of its tools such as cognitive domains metonymy and metaphor our study then is one of the first to apply some of the contributions of cognitive linguistics to lexicography in general and particularly with reference to the hebrew greek and latin versions of the bible a further novel contribution of this research is that the meaning is expressed through a definition and not through a list of possible colour terms as happens in dictionaries or in studies referring to colour in antiquity the definition allows us to delve deeper and discover new nuances that enrich the understanding of colour in the three great civilizations involved in our study israel greece and rome

what if meaning were the last thing that mattered in language in this essay henri meschonnic explains what it means to translate the sense of language and how to do it in a radical stand against a hermeneutical approach based on the dualistic view of the linguistic sign and against its separation into a meaningful signified and a meaningless signifier henri meschonnic argues for a poetics of translating because texts generate meaning through their power of expression to translate ethically involves listening to the various rhythms that characterize them prosodic consonantal or vocalic patterns syntactical structures sentence length and punctuation among other discursive means however as the book illustrates such an endeavour goes against the grain and more precisely against a 2500 year old tradition in the case of biblical translation the inability of translators to give ear to rhythm in language results from a culturally transmitted deafness henri meschonnic decries the generalized unwillingness to remedy this cultural condition and discusses the political implications for the subject of discourse

beginning in 1990 thousands of spanish speakers emigrated to japan a cultural history of spanish speakers in japan focuses on the intellectuals literature translations festivals cultural associations music bolero tropical music and pop including reggaeton dance flamenco tango and salsa radio newspapers magazines libraries and blogs produced in spanish in japan by latin americans and spaniards who have lived in that country

over the last three decades based on in depth research in archives throughout the country as well as field work including several interviews japanese speaking mexican scholar araceli tinajero uncovers a transnational contemporary cultural history that is not only important for today but for future generations

life is a journey full of surprises emotions possibilities and encounters some of these encounters whether sought or unexpected can change the trajectory of our lives they are decisive encounters how paramount it is to have an encounter with someone who will be our friend with whom will be our partner with people who influence our development and the shaping of our character among others however of all encounters the most important one is the encounter with jesus throughout history many people have met him and it has been a turning point in their lives jesus did not leave anyone unmoved all the encounters with him were decisive in this book dr roberto badenas talks about these encounters as well as their distinct nuances recorded in the scriptures he conveys to us vividly and profoundly the experiences of people whose lives were changed by jesus which gives us the desire to experience the same the story of one decisive encounter is still missing yours with jesus and that one is to be written by you

this book that investigates the character of the peshitta in psalms 90 150 is designed as a tool for scholars who seek to understand the readings preserved in the peshitta questions as the theology of the translation the identity of the translators and the relationships among the manuscripts are also raised

this edited collection explores the mediation between languages cultures and people that occurs when shakespeare is translated in multiple senses and who is included and excluded in the process it features contributions from emerging and established critical and creative writers who offer analysis of a wide range of global cases spanning asia latin america and the middle east as well as europe and north america the collection covers numerous languages both spoken and written including dutch mandarin spanish tamil and welsh and visual american sign language and their uses across various multimodal contexts from page and stage to film dubbing radio plays and netflix shows and from classrooms to refugee camps

the series beihefte zur zeitschrift für die alttestamentliche wissenschaft bzw covers all areas of research into the old testament focusing on the hebrew bible its early and later forms in ancient judaism as well as its branching into many neighboring cultures of the ancient near east

henri meschonnic was a linguist poet translator of the bible and one of the most original french thinkers of his generation this reader featuring fourteen texts covering the core concepts and topics of meschonnic s theory will enrich enhance and challenge your understanding of language

in torah praxis after 70 ce oliver challenges conventional views of the gospels of matthew and luke as well as the acts of the apostles he reads the works not only against their jewish background but also as early jewish literature in doing so he questions the traditional classification of luke acts as a greek or gentile christian text to support his assertions dr oliver s literary historical investigation explores the question of torah praxis in each book citing evidence that suggests several ritual jewish practices remained fixtures in the jesus movement and that jewish followers of jesus played key roles in forming the ekklesia well into the first century ce

la traducción ha sido un factor histórico de considerable peso en la evolución de los más diversos campos de actuación humana en efecto la traducción se ha concebido en algunas ocasiones como movimiento iniciador de una transformación en otras ha supuesto un impulso real para la renovación la ruptura o la reacción en política ideología o evolución estética en cualquier momento y situación histórica la visión del mundo se ha nutrido en gran medida de textos traducidos en esta obra se ofrecen diferentes perspectivas de cómo se ha producido esa influencia de la traducción en el desarrollo de ámbitos tan dispares como la difusión de ideas políticas revolucionarias la configuración de la alteridad los trasvases culturales en los medios de comunicación la canonización de las novedades literarias o la reinterpretación de los textos sagrados

many nations had poet kings but ancient israel is probably unique in having a poet as founder of the royal house according to scripture the young david sang psalms while in hiding and the elderly david wrote many psalms and encouraged others to do so with this example before them the hebrews became a highly poetical people they sang psalms in their temple and in their homes and were famed for their songs even as exiles in babylon there our captors asked us for words of song and our wardens for joyful song oh sing to us a song of zion psalm 137 3 the psalms hold many more names and titles of god than have been transmitted these theological phrases are among the most important because

this is sacred poetry chant enthusiasts and scholars will know that the peregrine chant tones come from the gregorian repertory jewish historians or musicologists will find great interest in these translated psalms since the tones come also from the jewish repertory

seed falling on good soil is a unique book that combines a historically informed approach to lucan parables with a critical understanding of social justice issues of our own age the author proposes that the stories told by jesus were narratives of resistance challenging audiences to participate in the personal and social transformation of god s kingdom the author s experience in international community development provides a perspective rarely found among new testament specialists the book uses stories from the margins of our current world to connect the message of the parables with global issues of poverty ethnic violence gender discrimination hunger and oppression this book will appeal to people who long for the healing of a wounded world

to the unstudied eye st matthew s gospel can seem a terse narrative almost a historical document and not the tremendously spiritual and doctrinal storehouse that it is in his fourth and final volume of meditations on matthew chapters 26 28 father simeon formerly erasmo leiva merikakis continues to show matthew s prose to be not so much terse as economical astoundingly so given its depth the lay reader can derive great profit from reading this book each short meditation comments on a verse or two pointing to some facet of the text not immediately apparent but rich with meaning father simeon s work is scholarly but eminently approachable by the lay reader the tone is very much of taste and see how good the lord is and an invitation of friend come up higher the goal of the book is to help the reader experience the heat of the divine heart and the light of the divine word the author addresses both the objective and subjective levels of the word of god both what it is in itself and what impact it ought to have in our lives father simeon comments on the greek text demonstrating nuances in the text that defy translation he uses numerous quotes from the fathers and the liturgy of the church to demonstrate the way the tradition has lived and read the word of god his theological reflection vivifies doctrine by seeking its roots in the words and actions of jesus he shows that ultimately the text of the gospel serves only one purpose to make possible a living encounter with the person of jesus christ an encounter that is wholly life transforming every effort therefore has been made throughout the commentary to show how the presence of christ in the world has changed the very nature of both history and human experience
