prisoners of war examines the experience of the unemployed and their protests in france in the interwar years little has been written on the experience of unemployment in france despite the wealth of material social and medical investigations government reports novels memoirs and newspapers that can be used to reconstruct the representation and reality of the experience assessing the impact of unemployed protest upon the authorities in terms of policy and the longer term development of the welfare state this book places the role of the unemployed in the wider context of european social movements in the 1930s as well as considering the significance of unemployed protests upon the french collective memory the part played by the french communist party in the creation and leadership of the movements of the unemployed and the range of activities these movements undertook is also explored from self help to protests hunger marches demonstrations relief work school strikes town hall occupations and riots all were strategies that the unemployed utilised to draw attention to their plight crucial to explaining the characteristics of these movements is an understanding of the dynamics of protest and how different tactics were selected during their development particularly the extent to which tactical shifts were related to the nature of the response of the authorities by exploring these under researched facets of political life a much fuller understanding of french society during the turbulent interwar years is offered

longlisted for the mountbatten maritime media awards 2022 a groundbreaking history of the black joke the most famous member of the british royal navy s anti slavery squadron and the long fight to end the transatlantic slave trade initially a slaving vessel itself the black joke was captured in 1827 and repurposed by the royal navy to catch its former compatriots over the next five years the vessel liberated more enslaved people than any other in britain s

west africa squadron as britain attempted to snuff out the transatlantic slave trade by way of treaty and negotiation enforcing these policies fell to ships such as the black joke as they battled slavers weather disasters and interpersonal drama among captains and crew that reverberated across oceans the black joke is a crucial and deeply compelling work of history both as a reckoning with slavery and abolition and as a lesson about the power of political will or the lack thereof

the environmental protection agency states that in the past 50 years humans have consumed more resources than in all of previous history recycling reuse and remanufacturing account for 31 million jobs in america according to american solar energy society yet our garbage accounts for 42 percent of u s greenhouse gas emissions this pertinent resource examines issues surrounding garbage and recycling in america chapters explore topics such as dealing with hazardous waste the global challenge of waste management and strategies for future waste management

sarah kinkel shows that the rise of british naval power was neither inevitable nor unquestioned it was the outcome of fierce battles over the shape of britain s empire and the bonds of political authority the navy was one of many battlefields where british subjects debated whether the empire would be ruled from parliament down or the people up

this is a beautifully written and engaging book at its heart is a series of structured interviews with ten nobel memorial laureates in economics that provide fascinating insights into the main influences on their career paths and pioneering work karen horn is to be applauded not just for her wide ranging scholarship and thought provoking analysis but also for producing a non technical yet rigorous book which is eminently accessible to non specialists in short this an excellent volume which comes highly recommended howard r vane liverpool john moores university uk karen horn s questions are insightful her notes are accurate and informative and her summing up of the central question of creativity that she poses in the book is cogent and to the point all in all this book is difficult to put down and i can t imagine any reader who will not fail to learn a great deal about economics along the way mark blaug university of london and university of buckingham uk karen horn s remarkable interviews with ten nobel laureates explore the conditions required for scientific progress by navigating the roads to wisdom in economic science how does progress in economic theory come about where do path breaking ideas come from what is it that has enabled these outstanding scholars to make their substantial contributions how deep are the footprints of a particular historical situation how strong the political tide or the state of the art in economics and how influential is personal history on their individual roads to wisdom analytical answers to these fundamental questions are presented in this insightful collection of deep and highly inspiring

conversations with nobel laureates paul a samuelson kenneth j arrow james m buchanan robert m solow gary s becker douglass c north reinhard selten george a akerlof vernon l smith and edmund s phelps superbly supplemented with concise overviews of the nobel laureates lives and works these fascinating discussions culminate with a comprehensive inquiry into progress in economic theory as such this eloquent and highly accessible book will prove to be a compelling read for scholars and students of the discipline and all those with an interest in economics and the history of economic thought

mainstream human rights discourse speaks of such evils as the holocaust slavery or apartheid in ways that put them solidly in the past its elaborate techniques of transitional justice encourage future generations to move forward but the false assumption of closure enables those who are guilty to elude responsibility this approach to history common to late twentieth century humanitarianism doesn t presuppose that evil ends only when justice begins rather it assumes that a time before justice is the moment to put evil in the past merging examples from literature and history robert meister confronts the problem of closure and the resolution of historical injustice he boldly challenges the empty moral logic of never again or the theoretical reduction of evil to a cycle of violence and counterviolence that is broken once evil is remembered for what it was meister calls out such methods for their deferral of justice and susceptibility to exploitation specifically he spells out the moral logic never again in relation to auschwitz and its evolution into a twenty first century doctrine of the responsibility to protect

using the best scientific evidence drugs america s holy war explores the impact and cost of america s war on drugs both in tax spending and in human terms is it possible that us drug policies are helping to proliferate not prevent a multitude of social ills including homicide property crime the spread of aids the contamination of drugs the erosion of civil liberties the punishment of thousands of non violent people the corruption of public officials and the spending of billions of tax dollars in an attempt to prevent certain drugs from entering the country in this controversial new book award winning economist arthur benavie analyzes the research findings and argues that an end to the war on drugs much as we ended alcohol prohibition would yield enormous international benefits destroy dangerous and illegal drug cartels and allow the american government to refocus its attention on public well being
