car manufacturers are playing a major role beneath the most promising industries for investors but the changing environment of political decisions and moving values of customers influence the strategies of the oems the quality strategy of the car brand plays

an enormous role the increasing trend of major recall initiatives of vehicles is part of the daily press and harms the quality reputation of the car makers but how can the analyst give a statement about the quality performance with the public information provided by the oems one possibility is the evaluation of the provision for warranty which is part of the liabilities in the annual report this book compares the applicable requirements like laws and reporting standards which have to be followed it shows calculation methods to make the impact of laws and reporting standards visible in respect to the estimation of the failure probability statistic methods are explained finally the annual reports of the biggest car manufacturers are compared with each other in regards to the available information about warranty provisions and key figures are analyzed

this short book is designed to cover all the key essential elements of making an investment proposal to raise finance from private and public investors both the proposal document itself and the presentation of it although made with the owners and directors of small and medium enterprises in mind it is equally valid for people wanting to make project proposals or launch new ventures and initiatives a subject like this by its nature is technical we have done our best to keep jargon and terminology to an acceptable minimum in part because we want to take you into the mind of the potential investor so you understand what drives investor decisions in part because investment proposals are less about ratios and more about assessment and judgment qualitative aspects of appraisal not quantitative ones if you are a professional financial analyst or investment manager nothing in this book should be of surprise to you you might even criticize for its intellectual lightness if you are an entrepreneur or general manager who needs to find investment and needs to be briefed simply and quickly on the process and activities that form part of making an investment proposal without getting overly detailed in financial jargon at this stage then this is the book for you

by introducing the four key areas covering both medical and environmental health protection namely climate change communicable disease emergency and environmental health and supplemented with appropriate examples this book aims to help

strengthen regional subnational national and global health protection

in times of crisis whether due to disasters armed conflicts or other health emergencies the timely and well coordinated evacuation of patients is a critical component of emergency response past emergencies have demonstrated the urgent need for standardized approaches to both pre hospital support for medical evacuation medevac and medevac operations themselves the absence of clear protocols coupled with delays miscommunication and inadequate care during transit can severely impact patient outcomes establishing standardized procedures ensures that medical evacuations are conducted safely efficiently and in coordination with the broader health care and emergency response system this guidance aims to provide a comprehensive framework for the safe and context adapted coordination clinical care operations support and logistics relevant to governments national authorities including ministries of health civil protection and civil defence national and international emergency medical teams emts nongovernmental organizations ngos emergency medical services ems and other key stakeholders operating in the medevac space or wishing to build this kind of capacity it defines minimum standards and recommendations for the development and classification of respective specialized care teams scs this is particularly relevant for contexts without pre existing or functional prehospital or medevac systems and can support country level capacity building regional and sub regional planning and the development of scs

this open access book analyses the interplay of sustainable development and human rights from different perspectives including fight against poverty health gender equality working conditions climate change and the role of private actors each aspect is addressed from a more human rights focused angle and a development policy angle this allows comparisons between the different approaches but also seeks to close gaps which would remain if only one perspective would be at the center of the discussions specifically the book shows the strong connections between human rights and the objectives of the 2030 agenda for sustainable development and the sustainable development goals adopted by the united nations in 2015 already the preamble of this document

explicitly states that the 17 sustainable development goals seek to realise the human rights of all moreover several goals and targets of the 2030 agenda correspond to already existing individual human rights obligations the contributions of this volume therefore also address how the implementation of human rights and sdgs can reinforce each other but also point to critical shortcomings of the different approaches

the risk of clinically significant drug interaction rises when a patient increases his intake of medication while drug interaction can be a prominent cause of illness in many cases it can be avoided with proper knowledge and care this text provides a concise yet comprehensive review of common drug interactions in gastroenterology the book begins with a preliminary overview of gi drugs focusing on legal aspects of drug use clinical research and regulatory review and drug development the next section goes over the basic pharmacology of gi drugs specifically profiling antisecretory drugs motility drugs mucosal protective agents antibiotics and anti inflammatory drugs the third section of the text reviews important aspects of drug interaction topics covered in this section include the different types of drug interactions adverse drug reactions and interactions enzymes and transporters involved in drug interactions pharmacogenomics drug herbal interactions drug food interactions and ways to avoid drug interactions altogether the book moves on to examine comorbidity and digestive diseases that can result from drug interactions with particular emphasis on infections cardiorespiratory disorders renal insufficiency ibs metabolic disorders and cns disorders this section also discusses the influence of age on drug interactions the final section spotlights comedication that can be used to mitigate disorders caused by drug interactions specifically reviewing comedication used to treat acid related disorders intestinal inflammation liver disorders pancreato biliary disorders and motility disorders the text also includes over 100 high yield illustrations photographs and tables
