this thesis takes an interest in how values attain a specific meaning in market reforms of welfare provision the study builds on exploring how values are enacted rather than treating them as universal and stable the aim of the thesis is to contribute conceptually to the understanding of how market making activities in the welfare state bureaucracy handle the values at play in welfare reform the empirical case is the governance of a so called care choice system in a swedish county council the methodology for the study is shadowing of public officials working to formulate a so called rulebook for care centres the analysis describes how these officials handle a variety of values when designing the rulebook how they choose to organize their work the methods used to collect data about care centre performance what governance tools they employ how they arrange their work roles and how they construct the rulebook leads to value shifts and determines the meaning of values in practice the officials work practice is political in the sense that it actively shapes the values enacted in the care choice reform therefore it is of great importance to spur a broader debate about the organization of such governance practices while there is a need to problematize simplistic images of what market reforms of welfare entails in practice the thesis proposes that an ecological i e a situated reflexive

and malleable approach to handling of contending values may contribute to such debates avhandlingen intresserar sig för hur värden får sin praktiska innebörd i marknadsreformer av välfärdstjänster studien bygger på att undersöka hur värden blir lokalt iscensatta snarare än att behandla dem som universella och stabila syftet med studien är att utveckla begrepp för att förstå hur marknadsskapande styrning av välfärd hanterar de motstridiga värden som står på spel i välfärdsreform det empiriska fallet utgörs av styrningen av det s k vårdvalet i ett svenskt landsting metoden är skuggning av tjänstemän som jobbar med att formulera en s k regelbok för vårdcentraler analysen beskriver hur dessa tjänstemän arbetar med att hantera olika typer av värden när de konstruerar regelboken hur de väljer att organisera sitt arbete vilka metoder de använder för att samla in data om vårdcentralernas prestationer vilka verktyg de använder för styrning hur de ordnar sina arbetsroller samt hur de konstruerar regelboken leder till värdeförskjutningar och styr vilka uttryck de olika värdena får i praktiken tjänstemännens arbete är politiskt såtillvida att det aktivt formar de värden som får utrymme i vårdvalsreformen därför är det av stor vikt att skapa en bredare debatt kring organisering av sådan styrning samtidigt som det kräver att man problematiserar förenklade bilder av vad marknadsreformer i välfärden betyder i praktiken avhandlingen föreslår att ett ekologiskt dvs ett situerat reflexivt och föränderligt perspektiv på hanteringen av motstridiga värden i marknadsreformer kan bidra till en sådan debatt
