this book deals with the intricate connection between the political structure of the east german government and cultural politics specifically it focuses on the relationship between the government agencies and three authors it explores the difficulties the writers encountered in the 1960s with the government of east germany and how their works did or did not conform to the cultural policy established by the gdr regime in 1951 the government believed that it was imperative for authors and artists to adhere to the literary policy of social realism prescribed by the east german ministry of culture an author s works were expected to conform to the political ideology of marxism the ministry of culture expected writers to depict the society through the glorification of marxism the east german cultural functionaries evaluated a piece of literature more for the author s devotion to the political doctrine than the aesthetic quality of the work if works did not conform the government agencies such as the ministry of culture could apply pressure to the authors in many forms censorship silencing fines prosecution surveillance and for extreme cases expatriation this study assesses three prominent writers of the former east germany wolf biermann a lyricist christa wolf a novelist and heiner müller a dramatist the analysis is based on the political content of the authors works and how the west german and east german critics evaluated them government documents from german state archives revealed the sensitive nature of the political and writer conferences of the gdr the study analyzes how the writers interpretation of socialism increasingly deviated from that of the east german regime over time the writers chose to express themselves in a different manner and thus encountered problems and conflicts with the ministry of culture

well before germany emerged as a single nation or chemistry as a clearly defined profession german chemists had formed a national scientific community that presaged the increasing specialization so characteristic of modern science it found a forum in the chemical journal established by lorenz crell in 1778 it proved its cohesiveness first by rejecting lavoisier s theory on nationalistic grounds and then after a fierce struggle by rallying behind the french system this pioneering study of the early german chemical community is rich in implications for the social history of science charts tables graphs and illustrations

this volume provides a valuable contribution to our knowledge of eighteenth and nineteenth century intellectual life inside and outside germany prof karl s guthke harvard university this elegant collection of essays ranges across eighteenth and nineteenth century thought covering philosophy science literature and religion in the age of goethe a recognised authority in the field nisbet grapples with the major voices of the enlightenment and gives pride of place to the figures of lessing herder goethe and schiller these eleven essays range widely in their compass of thought and intellectual discourse dealing incisively with themes including the philosophical implications of literature and the relationship between religion science and politics the result is an accomplished reflection on german thought but also on its rebirth as nisbet argues for the relevance of these enlightenment thinkers for the readers of today the first half of this collection focuses predominantly on eighteenth century thought where names like lessing goethe and herder but also locke and voltaire feature the second has a wider chronological scope discussing authors such as winckelmann and schiller while branching out from discussions of religion philosophy and literature to explore the sciences issues of biology early environmentalism and natural history also form part of this volume the collection concludes with an examination of changing attitudes towards art in the aftermath of the age of goethe the essays in this volume have been previously published separately but are brought together in this collection to present nisbet s widely acclaimed perspectives on this fascinating period of german thought it will be of interest to scholars and students of the intellectual life of europe during the enlightenment while its engaging and lucid style will also appeal to the general reader

recent sociopolitical events have profoundly changed the status and functions of german and influenced its usage in this study published by cambridge in 1984 michael clyne revises and expands his original analysis of the german language in language and society in the german speaking countries in the light of such changes as the end of the cold war german

unification the redrawing of the map of europe increasing european integration and the changing self images of austria switzerland and luxembourg his discussion includes the differences in the form function and status of the various national varieties of german the relation between standard and non standard varieties gender generational and political variation anglo american influence on german and the convergence of east and west the result is a wide ranging exploration of language and society in the german speaking countries all of which have problems or dilemmas concerning nationhood or ethnicity which are language related and or language marked
