this edited volume offers a global overview of the immediate impacts the covid pandemic had on local and national film television streaming and social media industries examining in compelling detail how these industries managed the crisis with accounts from the frontlines media industries in crisis provides readers with a stakeholder framework management lessons

and urgent commentaries to unpack the nature of crisis management and communications the authors show how these industries have not only survived but often thrive amidst a backdrop of critical national and regional emergencies wars financial meltdowns and climate disasters this international collection featuring case studies from 16 countries examines how media industries managed all of these crises successfully rebranding themselves as essential while making power plays in politics economics and culture the chapters reveal key lessons for the meltdowns tectonic shifts and struggles ahead this collection will be of interest to media and communication students particularly those focused on media industries crisis communications and management as well as to practitioners working in media industries introduction and chapter 1 of this book is freely available as a downloadable open access pdf at taylorfrancis com under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

education is a cornerstone of human and sustainable development vital for social progress and economic growth educational frameworks of south asia delves into the challenges and opportunities within the region s education systems highlighting issues such as limited access gender inequities and underfunding this book presents innovative approaches to student centered learning professional development programs and sustainable education practices across eleven chapters readers will explore diverse topics from flipped classrooms and teacher training in high schools to engineering education in india and multimedia use in bangladesh the book also examines remittances impact on education in nepal clinical learning environments in pakistan and the role of sustainability in technology education with practical case studies and forward looking strategies this book is an invaluable resource for educators policymakers and researchers seeking to improve education in south asia

a learner centred curriculum provides space for the learner to be actively involved in knowledge production and learning such can only happen if the learner s confidence is boosted by a feeling of control and ability to manage his or her progress towards acquiring a qualification the twenty first century teacher must create an environment that not only supports the four pillars of learning but also leads to learners being allowed a voice to ask pertinent questions the teacher should be able to guide the student to full physical and mental maturity and should help to develop critical thinking and the students should be encouraged to practice the truth and have self respect and respect for other people this can happen if the learner is afforded the opportunity to self accept if the learners fail to do so they are likely to have lack of confidence which will lead to lack of independence

this book constitutes the refereed proceedings of the ifip tc6 4th international working conference on active networks iwan 2002 held in

zurich switzerland in december 2002 the 20 revised full papers presented were carefully reviewed and selected from 53 submissions among the topics addressed are router architectures reconfigurable systems nodeos service deployment active network services active network queries network management agents active network performance mobile communications programmable networks network execution environments active network architecture group communication peer to peer networks and interaction detection

im mainstream der beteiligungsforschung fungiert das brasilianische porto alegre als ein gelungenes modell partizipativer kommunalpolitik die bezeichnung stadt der demokratie prägt das image dieser stadt die oft in verbindung mit dem verfahren des bürgerhaushaltes untersucht wird doch rogerio r mororó präsentiert ein ganz anderes bild von porto alegre er kommt in seiner analyse zu den ergebnissen dass direkte bürgerbeteiligung in porto alegre bislang zwar zu mehr legitimation politischer entscheidungsfindungen beigetragen hat jedoch nicht zu veränderungen bestehender machtstrukturen und ebenso wenig zur spürbaren minderung von misständen wie krassen räumlichen und sozialen disparitäten in der lokalen gesellschaft diese tatsache wird jedoch von einem demokratischen mythos verklärt

this whole edition is dedicated to women hence there are a lot of stuffs related to the various domains of the life of a female a lot of interesting feminal reads are available to our readers ranging from inspirational stories to the social and cultural problems encountered by females from yummylicious food recipes to unique facts about women from distinctive achievements made by women worldwide to must haves for women to name a few and yeah not to mention this edition does offer a great deal to our male readers too a magazine that contains a lot of fascinating as well as enthralling stuffs for people of all ages it includes topics ranging from technology to music from inspirational stories to news about important happenings in the prevailing month from information on useful apps to cykopedia and a lot more to attract you towards it we as a team have developed this multifaceted magazine to bring to your service information and knowledge dealing with the different aspects of our lives it s our initiative to bring to you a unique reading experience like never before a complete blend of innovative ideas emanated from different minds so guys kindly spare some time and get through our work and yeah don t forget to give us your reviews your feedbacks are of immense importance to us and would be highly appreciated and made use of in raising the standards of our magazine as well as mitigating the short comings of the same

written by leading market risk academic professor carol alexander practical financial econometrics forms part two of the market risk analysis four volume set it introduces the econometric techniques that are commonly

applied to finance with a critical and selective exposition emphasising the areas of econometrics such as garch cointegration and copulas that are required for resolving problems in market risk analysis the book covers material for a one semester graduate course in applied financial econometrics in a very pedagogical fashion as each time a concept is introduced an empirical example is given and whenever possible this is illustrated with an excel spreadsheet all together the market risk analysis four volume set illustrates virtually every concept or formula with a practical numerical example or a longer empirical case study across all four volumes there are approximately 300 numerical and empirical examples 400 graphs and figures and 30 case studies many of which are contained in interactive excel spreadsheets available from the the accompanying cd rom empirical examples and case studies specific to this volume include factor analysis with orthogonal regressions and using principal component factors estimation of symmetric and asymmetric normal and student t garch and e garch parameters normal student t gumbel clayton normal mixture copula densities and simulations from these copulas with application to var and portfolio optimization principal component analysis of yield curves with applications to portfolio immunization and asset liability management simulation of normal mixture and markov switching garch returns cointegration based index tracking and pairs trading with error correction and impulse response modelling markov switching regression models evIEWS code garch term structure forecasting with volatility targeting non linear quantile regressions with applications to hedging

market risk analysis is the most comprehensive rigorous and detailed resource available on market risk analysis written as a series of four interlinked volumes each title is self contained although numerous cross references to other volumes enable readers to obtain further background knowledge and information about financial applications volume i quantitative methods in finance covers the essential mathematical and financial background for subsequent volumes although many readers will already be familiar with this material few competing texts contain such a complete and pedagogical exposition of all the basic quantitative concepts required for market risk analysis there are six comprehensive chapters covering all the calculus linear algebra probability and statistics numerical methods and portfolio mathematics that are necessary for market risk analysis this is an ideal background text for a masters course in finance volume ii practical financial econometrics provides a detailed understanding of financial econometrics with applications to asset pricing and fund management as well as to market risk analysis it covers equity factor models including a detailed analysis of the barra model and tracking error principal component analysis volatility and correlation garch cointegration copulas markov switching quantile regression discrete choice models non linear regression forecasting and model evaluation volume iii

pricing hedging and trading financial instruments has five very long chapters on the pricing hedging and trading of bonds and swaps futures and forwards options and volatility as well detailed descriptions of mapping portfolios of these financial instruments to their risk factors there are numerous examples all coded in interactive excel spreadsheets including many pricing formulae for exotic options but excluding the calibration of stochastic volatility models for which matlab code is provided the chapters on options and volatility together constitute 50 of the book the slightly longer chapter on volatility concentrating on the dynamic properties the two volatility surfaces the implied and the local volatility surfaces that accompany an option pricing model with particular reference to hedging volume iv value at risk models builds on the three previous volumes to provide by far the most comprehensive and detailed treatment of market var models that is currently available in any textbook the exposition starts at an elementary level but as in all the other volumes the pedagogical approach accompanied by numerous interactive excel spreadsheets allows readers to experience the application of parametric linear historical simulation and monte carlo var models to increasingly complex portfolios starting with simple positions after a few chapters we apply value at risk models to interest rate sensitive portfolios large international securities portfolios commodity futures path dependent options and much else this rigorous treatment includes many new results and applications to regulatory and economic capital allocation measurement of var model risk and stress testing

start the flyght series today with first flyght broken flyght and high flyght all in one ebook set betrayal will send her back to him grit and determination will forge her future vivian kawabata is ready to claim her birthright and ascend to the head of the family empire but that dream ends when her brother stabs her in the back draining the accounts and leaving her unable to pay for so much as a pair of shoes but she s not giving up without a fight to stand a chance of restoring her rightful place in the universe the rule following vivian may have to break a few intergalactic laws after how she s been treated it s a price she s willing to pay with an old starship she secured from her aunt she takes on two new roles a sexy heiress collecting eligible bachelors and a hard nosed captain rebuilding a lost fortune by any means necessary completely out of her depth she d be sunk without the help of a relationship broker a handsome ex boyfriend a hacker with a heart of gold and a host of other romantic partners she meets along the way with a business that runs the razor s edge between trade and smuggling the former high society socialite will have to choose between love and business if she s to rebuild her empire first flyght is the first book in the flyght series of star spanning sci fi romance broken flyght and high flyght are books 2 and 3 of the six book completed series if you like action packed space operas and a universe full of twists then you ll love s j pajonas

s interstellar adventure please note this series must be read in order it is a true series and plot elements carry through every book from beginning to end you will miss too much by reading this series out of order or skipping around the flyght series is complete at six books this is also a slow burn rh series that contains profanity and sexual situations additional keywords science fiction science fiction romance reverse harem reverse harem romance why choose why choose romance space opera science fiction action adventure

historicamente a linguagem utilizada pelos operadores do direito foi diferente daquela comumente utilizada pela população em geral chegamos ao ponto em que mesmo os operadores do direito não são capazes de compreender os textos escritos pelos outros colegas devido ao excesso de termos arcaicos e mal empregados assim fundamental que se fomente a democratização da escrita jurídica como parte do esforço em oferecer uma prestação jurisdicional satisfatória e eficaz

linux is being adopted by an increasing number of embedded systems developers who have been won over by its sophisticated scheduling and networking its cost free license its open development model and the support offered by rich and powerful programming tools while there is a great deal of hype surrounding the use of linux in embedded systems there is not a lot of practical information building embedded linux systems is the first in depth hard core guide to putting together an embedded system based on the linux kernel this indispensable book features arcane and previously undocumented procedures for building your own gnu development toolchain using an efficient embedded development framework selecting configuring building and installing a target specific kernel creating a complete target root filesystem setting up manipulating and using solid state storage devices installing and configuring a bootloader for the target cross compiling a slew of utilities and packages debugging your embedded system using a plethora of tools and techniques details are provided for various target architectures and hardware configurations including a thorough review of linux s support for embedded hardware all explanations rely on the use of open source and free software packages by presenting how to build the operating system components from pristine sources and how to find more documentation or help this book greatly simplifies the task of keeping complete control over one s embedded operating system whether it be for technical or sound financial reasons author karim yaghmour a well known designer and speaker who is responsible for the linux trace toolkit starts by discussing the strengths and weaknesses of linux as an embedded operating system licensing issues are included followed by a discussion of the basics of building embedded linux systems the configuration setup and use of over forty different open source and free software packages commonly used in embedded linux systems are also covered uclibc busybox u boot openssh t d tftp strace and gdb are

among the packages discussed
