operetta developed in the second half of the 19th century from the french opéra comique and the more lighthearted german singspiel as the century progressed the serious concerns of mainstream opera were sustained and intensified leaving a gap between opéra comique and vaudeville that

necessitated a new type of stage work jacques Offenbach son of a Cologne synagogue cantor established himself in Paris with his series of opéras bouffes the popular success of this individual new form of entertainment light humorous satirical and also sentimental led to the emergence of operetta as a separate genre an art form with its own special flavour and concerns and no longer simply a little opera attempts to emulate Offenbach's success in France and abroad generated other national schools of operetta and helped to establish the genre internationally in Spain in England and especially in Austria Hungary here it inspired works by Franz von Suppé and Johann Strauss II the Golden Age and later Franz Lehár and Emmerich Kálmán the Silver Age Viennese operetta flourished contemporaneously with the Habsburg Empire and the mystique of Vienna but after the First World War an artistically vibrant Berlin assumed this leading position with Paul Lincke Leon Jessel and Édouard Künneke as popular musical tastes diverged more and more during the interwar years with the advent of new influences like those of cabaret the revue jazz modern dance music and the cinema as well as changing social mores the operetta genre took on new guises this was especially manifested in the musical comedy of London's West End and New York's Broadway with their imitators generating a success that opened a new Golden Age for the reinvented genre especially after the Second World War this source book presents an overview of the operetta genre in all its forms the first volume provides an introduction a representative chronology of the genre from 1840 to 2013 and a survey of the national schools of France and Austria Hungary the principal composers are considered in chronological sequence with biographical material and a list of stage works selected synopses and some commentary

What is English as a school subject for what does knowledge look like in English and what should be taught Making Meaning in English examines the broader purpose and reasons for teaching English and explores what knowledge looks like in a subject concerned with judgement interpretation and value David Didau argues that the content of English is best explored through distinct disciplinary lenses metaphor story argument pattern grammar and context and considers the knowledge that needs to be explicitly taught so students can recognise transfer build and extend their knowledge of English he discusses the principles and tools we can use to make decisions about what to teach and offers a curriculum framework that draws these strands together to allow students to make sense of the knowledge they encounter if students are going to enjoy English as a subject and do well in it they not only need to be knowledgeable but understand how to use their knowledge to create meaning this insightful text offers a practical way for teachers to

construct a curriculum in which the mastery of english can be planned taught and assessed
