Even though the Irish child sex abuse scandals in the Catholic Church have appeared steadily in the media, many children remain in peril. In the child sex scandal and modern Irish literature, Joseph Valente and Margot Gayle Backus examine modern cultural responses to child sex abuse in Ireland using descriptions of these scandals found in newspapers, historiographical analysis, and 20th and 21st century literature. Valente and Backus expose a public sphere ardently committed to Irish children's souls and piously oblivious to their physical welfare. They offer historically contextualized and psychoanalytically informed readings of scandal narratives by nine notable modern Irish authors who actively, pointedly, and persistently question Ireland's responsibilities regarding its children. Through close critical readings, a more nuanced and troubling account emerges of how Ireland's postcolonial heritage has served to enable such abuse. The child sex scandal and modern Irish literature refines the debates on why so many Irish children were lost by offering insight into the lived experience of both the children and those who failed them.

Now in paperback, *Inventing the Child* is a highly entertaining, humorous, and at times acerbic account of what it means to be a child and a parent in America at the dawn of the new millennium. J. Zornado explores the history and development of the concept of childhood, starting with the works of Calvin Freud and Rousseau and culminating with the modern consumer childhood of Dr. Spock and television. The volume discusses major media depictions of childhood and examines the ways in which parents use different forms of media to swaddle, educate, and entertain their children. Zornado argues that the stories we tell our children contain the ideologies of the dominant culture, which more often than not promote happiness at all costs, materialism as the way to happiness, and above all, obedience to the dominant order.

There is no more seemingly incorrigible criminal type than the child sex offender, said to suffer from a deeply rooted paraphilia. He is often considered as outside the moral limits of the human, profoundly resistant to change. Despite these assessments, in much of the West, an increasing focus on rehabilitation through therapy provides hope that psychological transformation is possible. Examining the experiences of child sex offenders undergoing therapy in Germany, where such treatments are both a legal right and duty, John Borneman in *Cruel Attachments* offers a fine-grained account of rehabilitation for this reviled criminal type, carefully exploring different cases of the attempt to rehabilitate child sex offenders. Borneman

details a secular ritual process aimed not only at preventing future acts of molestation but also at fundamentally transforming the offender who is ultimately charged with creating an almost entirely new self acknowledging the powerful repulsion felt by a public that is often extremely skeptical about the success of rehabilitation he challenges readers to confront the contemporary contexts and conundrums that lie at the heart of regulating intimacy between children and adults
