over thirty years of input from instructors and students have gone into this popular research methods text resulting in a refined ninth edition that is easier to read understand and apply than ever before using unintimidating language and real world examples it introduces students to the key concepts of evidence based practice that they will use throughout their professional careers it emphasizes both quantitative and qualitative approaches to research data collection methods and data analysis providing students with the tools they need to become evidence based practitioners

refined with input from students and instructors who used the previous seven editions the authors have updated rearranged and added to the latest edition of this popular textbook it contains six new chapters four on evidence based practice emphasizing how important it is for students to master that concept and it lays the foundation for their understanding of it by providing a comprehensive explanation of both qualitative and quantitative research methods this edition is more current useful and aesthetically pleasing than ever before and is sure to hold its place as one of the premier textbooks for research methods courses appreciated by students and professors alike for its user friendliness and renowned for the way it helps social work programs produce professional capable social workers

now in its seventh edition this comprehensive text once again provides beginning social work students and practitioners with a proven time tested approach to help them understand and appreciate how to use basic evaluation techniques within their individual cases case level and the programs where they work program level as with the previous six editions this text is eminently approachable accessible straightforward and most importantly practical

you can now preview the new chapter 2 and advance ancillary material from the brand new companion website research methodology a step by step guide for beginners has been written specifically for those with no previous experience of research or research methodology written in a logical and accessible style and providing helpful techniques and examples it breaks the process of designing and doing a research project into eight manageable operational steps the book guides you through your project from beginning to end by offering practical advice on formulating a research question ethical considerations carrying out a literature review choosing a research design selecting a sample collecting and analysing qualitative and quantitative data writing a research report the book is essential reading for undergraduate and postgraduate students in the social sciences embarking on quantitative or qualitative research projects

this book was written for you a graduate social work student as an introduction to program evaluation we selected and arranged its contents so it can be used in a beginning one semester social work program evaluation course a social work administrative course or a program planning course it is designed to prepare you to participate in evaluative activities within your social service organization become a beginning critical producer of the professional evaluative literature become a beginning consumer of the professional evaluative literature master more advanced evaluation courses and texts

the practice of research in social work introduces research methods as an integrated set of techniques for investigating the problems encountered in social work this innovative text encourages students to connect technique and substance to understand research methods as an integrated whole and to appreciate the value of qualitative and quantitative alternatives the text enables students to both critically evaluate research literature and to develop the skills to engage in research and practice evaluation each chapter shows how particular research methods have been used to investigate an interesting social work research question and content on research ethics and diversity is infused into each chapter the goal of validity is introduced early in the text and used as an integrating theme throughout the book methods of particular concern in social work research are highlighted with chapters devoted to group survey single subject and qualitative designs the text is lively and accessible yet the coverage is thorough and up to date

this book deals with human rights action planning as a largely under researched area from theoretical doctrinal empirical and practical perspectives and as such provides the most comprehensive studies of human rights planning to date at the theoretical level by advancing a novel general theory of human rights planning it offers an alternative to the traditional state centric model of planning this new theory contains four sub theories contextual substantive procedural and analytical ones at the doctrinal level by conducting a textual analysis of core human rights conventions it reveals the scope and nature of the states obligation to adopt a plan of action for implementing human rights at the empirical level a cross case analysis of national human rights action plans of 53 countries is conducted exploring the major problems of these plans in different phases of planning and uncovering the underlying causes of these problems at the practical level this volume sets out how these plans should be developed and implemented how they can be best monitored by international human rights bodies and how to maximize their effectiveness with discussions bridging human rights theory and practice and development discourse this book will be a useful resource for a wide range of audiences from academics of different disciplines law human rights social policy political science political philosophy legal philosophy development studies planning studies socio legal studies to governments human rights practitioners and the un human rights bodies

this interdisciplinary book presents a comprehensive conceptual and methodological treatment of intervention research a developing area of empirical inquiry that aims to make research more directly relevant and applicable to practice intervention research contains original chapters by the most highly regarded scholars in the field these experts explain how to distinguish intervention research from other modalities demonstrate a new model of research for the design and development of interventions and provide guidelines for conducting intervention research in practice with individuals families and community organizations providing useful observations and a wealth of ideas authors offer conceptual schemes results from recent design and development studies and strategies and methodologies to help professionals make their research more usable and meaningful chapters cover such important topics as the acquisition of relevant knowledge meta analysis in intervention research methods and issues in designing and developing interventions and field testing and evaluating innovative practice interventions the book depicts intervention research through case illustrations and promotes the use of new technologies for developing innovative practice methods intervention research focuses on intervention design and development the part of intervention research involving the creation of reliable practical tools of social intervention in user ready form it sets forth systematic procedures for designing testing evaluating and refining needed social technology and for disseminating proven techniques and programs to professionals in the community intervention research has a base in social work but is highly interdisciplinary authors contributing to this text come from a variety of fields including psychology sociology education information science and communications professors and educators working in schools of public health education urban planning nursing and public administration or teaching courses in psychology sociology or upper level social work will find this book full of comprehensive and practical information that is advantageous for their work

this provocative and exhaustively researched book explores an unexpected consequence of the welfare reform legislation an increase most notably among african american women in the abortion rate as an attempt to avoid penalties imposed by family cap laws michael camasso the principal investigator on new jersey's independent evaluation of the caps impact on births abortions and contraceptive use the only such investigation commissioned in the nation offers the reader a chronicle of not only the empirical results of the legislation but of the ensuing political firestorm

adolescents are infamous for their rebellious behavior indeed much of the focus of therapy and clinical intervention with troubled adolescents focuses on their presumed need to rebel against their parents as they define their own identities yet psychologist vivian center seltzer argues that approaching work with adolescent clients with this presumption in mind is likely to miss the roots of their problem behavior rather than acting out against parental authority adolescents in need of clinical help are most often dealing with their disappointing comparisons with their peers the most relevant others to them during this period of their development seltzer explains that it is countless interactions with their peers at school and elsewhere outside of the home that are the primary mode of psychological and social development for adolescents practitioners must recognize this crucial influence and perhaps forgo traditional approaches in order to better work with their adolescent clients peer impact diagnosis and therapy is a practical professional guide for how to approach and aid troubled teens by accessing the wealth of insight to be gained from understanding the influence of peer interactions on development and on behavior full of diagnostic categories and protocols for use with all types of adolescents as well as guidance tips case studies and offering a targeted model for adolescent group therapy seltzer provides professionals with all the tools they need to assist teens on their road to adulthood
