the routledge handbook of language and identity provides a clear and comprehensive survey of the field of language and identity from an applied linguistics perspective forty one chapters are organised into five sections covering theoretical perspectives informing language and identity studies key issues for researchers doing language and identity studies categories and dimensions of identity identity in language learning contexts and among language learners future directions for language and identity studies in applied linguistics written by specialists from around the world each chapter will introduce a topic in language and identity studies provide a concise and critical survey in which the importance and relevance to applied linguists is explained and include further reading the routledge handbook of language and identity is an essential purchase for advanced undergraduate and postgraduate students of linguistics applied linguistics and tesol advisory board david block institució catalana de recerca i estudis avançats universitat de lleida spain john joseph university of edinburgh bonny norton university of british colombia canada

this volume provides a state of the art overview of the relationship between language and cognition with a focus on bilinguals bringing together contributions from international leading figures in various disciplines it is essential reading for researchers and postgraduate students with an interest in language and cognition or in bilingualism and second languages

originally published in 1977 this book considers the role language plays in psychological development it tries to avoid general discussions of language and thought an approach already sufficiently developed by philosophers and although somewhat less by psychologists instead it attempts to focus specifically upon what we can learn about the topic from available research findings at the time theoretical considerations are developed only when necessary to clarify an issue or to facilitate the integration of presented material the aim of the work is simple to share with the reader the author s thoughts and understanding of available knowledge of the role of language in mental development

language is a sophisticated tool which we use to communicate in a multitude of ways updated and expanded in its second edition this book introduces language and linguistics presenting language in all its amazing complexity while systematically guiding you through the basics the reader will emerge with an appreciation of the diversity of the world s languages as well as a deeper understanding of the structure of human language the ways it is used and its broader social and cultural context part i is devoted to the nuts and bolts of language study speech sounds sound patterns sentence structure and meaning and includes chapters dedicated to the functional aspects of language discourse prosody pragmatics and language contact the fourteen language profiles included in part ii reveal the world s linguistic variety while expanding on the similarities and differences between languages using knowledge gained from part i the reader can explore how language functions when speakers use it in daily

interaction with a step by step approach that is reinforced with well chosen illustrations case studies and study questions readers will gain understanding and analytical skills that will only enrich their ongoing study of language and linguistics

includes bibliographies and index

this popular introductory linguistics text is unique for its integration of themes rather than treat morphology phonetics phonology syntax and semantics as completely separate fields the book shows how they interact it provides a sound introduction to linguistic methodology while encouraging students to consider why people are intrinsically interested in language the ultimate puzzle of the human mind the text first treats such structural and interpretive parts of language as morphology phonology syntax and semantics then takes a cognitive perspective and covers such topics as pragmatics psychology of language language acquisition and language and the brain

this work aims to provide the most comprehensive bibliography in the domain of sociolinguistics and in the field of language planning the 640 page publication gives access to a large percentage of the published literature via a sophisticated thesaurus as the title indicates africa and specifically southern africa is covered in great detail sources on the history and development of the languages of namibia and zimbabwe have been included apart from sources on the languages of africa the bibliography also offers a comprehensive overview on topics such as language conflict language decline language development and language rights as well as a section on translations and interpreting the categorisation of sources is intended to stimulate researchers and postgraduate students and this makes the bibliography an indispensable tool for librarians and senior academics

what makes human language unique do women speak differently from men just what is the meaning of meaning language the basics provides a concise introduction to the study of language written in an engaging and entertaining style it encourages the reader to think about the way language works it features chapters on language in use attitudes to language children and language and language mind and brain a section on sign language a glossary of key terms handy annotated guides to further reading providing an accessible overview of a fascinating subject this is an essential book for all students and anyone who s ever been accused of splitting an infinitive
