america repeatedly finds itself mired in military interventions long after public buy in to the national interest has waned why is the timely disengagement of military forces so difficult to achieve traditional international relations theories diminish the role of the individual leader in favor of the state or international institutions behavioral science theories have in recent years experienced a resurgence however the dominant behavioral explanation of foreign policy decision making prospect theory while it focuses on how people tend to make decisions under risk still minimizes the influence of the individual president decisions to disengage military forces are presidential decisions just like the decisions to commit forces to foreign interventions if we accept this then it is important to understand if and if so why some presidents inherently are more or less acceptant of the risks disengagement presents this book operationalizes a competing personality based model of decision making under risk referred to here as the trait based model it is assessed using disengagement opportunities in three varied levels of military intervention across four presidencies humanitarian relief turned nation building under george h w bush and bill clinton in somalia compellent air campaigns turned peace making keeping in bosnia and kosovo under clinton and major combat operations turned irregular warfare in iraq under george w bush and barack obama data for the model predominantly comes from existing presidential personality profiles based on the dominant model of personality theory the five factor model augmented by myers briggs type inventory data from public sources this study aims to explain the roughly 30 percent of cases which defy prospect theory s predictions and to better explain those cases where prospect theory might heretofore have sufficed the results suggest specific personality traits do in fact point to presidents predispositions toward risk which in turn help explain their disengagement decisions this work may be only the second to apply the five factor model to presidential foreign policy decision making and is the first to do so in the context of disengagement decisions hopefully it will foster further work in both areas

women are now leading companies and other enterprises in significant numbers in developing countries as well as the western world this set examines the specific ways in which entrepreneurial women create success and

considers how the growing prevalence of female entrepreneurs will change the world this two volume work provides balanced and thorough coverage of women entrepreneurs in multicultural and international contexts as well as in the western world entrepreneurial women new management and leadership models explores how women everywhere are empowering themselves socially and economically through entrepreneurship and business ownership the contributors consider how discrimination against women in the workplace can contribute to the inspiration to become business owners in the first place and document the experiences of african american women entrepreneurs as well as women in distinct settings such as china africa rural jamaica and silicon valley the work draws on empirical studies data sets case studies and descriptions of career trajectories to portray the realities of women entrepreneurs today readers will understand the distinctive challenges and opportunities involved with the entrepreneurship process for women owned businesses grasp how women have overcome their disadvantages in getting funding and accessing capital and learn about the unique management and leadership style of women entrepreneurs

with a foreword by desmond tutu generation at risk brings insightful perspectives from experienced practitioners and researchers on how a better future can be secured for the millions of children who are being orphaned or made vulnerable by hiv aids the current situation of these children is grim and while there has been significant action by governments international organizations religious bodies and non governmental organizations the vast majority of children made vulnerable by aids have not benefited from any assistance beyond their own extended family and community a generation at risk explains in straightforward terms what is required to fill this gap the book addresses what needs to be done in the areas of education community mobilization and capacity building economic strengthening at household and community levels psychosocial support and the protection of children and the fulfilment of their rights

higher education institutions play a vital role in their surrounding communities besides providing a space for enhanced learning opportunities universities can utilize their resources for social and economic interests the handbook of research on science education and university outreach as a tool for regional development is a comprehensive reference source for the latest scholarly material on the expanded role of universities for community

engagement initiatives providing in depth coverage across a range of topics such as resource sharing educational administration and technological applications this handbook is ideally designed for educators graduate students professionals academics and practitioners interested in the active involvement of education institutions in community outreach

if academics are genuinely to develop as teachers throughout their careers if they are to continue to produce innovations they have to bring a scholarly orientation to teaching this series will show them how to do that it will teach them how to make credible cases for different forms of innovation thus helping them to situate teaching centrally in their careers it will also show them ways of solving students problems and methods of helping their students to learn more effectively the first year at university teaching students in transition the first year at university can be a very challenging time for students especially in a mass system of higher education many students are ill equipped to cope with life at university and retention is now a critical metric for all universities this has resulted in universities having to spend considerable time and attention on ensuring that the first year experience is as positive as possible for all students this book offers a range of practical strategies underpinned by relevant research which lecturers can implement when charged with working with first year students in order to ease their transition to higher education these strategies affect not only the design of courses teaching and assessment but also how teams of lecturers provide consistent support and how this in turn is supported by strategic planning at an institutional level the first year at university is a practical resource that can be used by a wide range of lecturers including those undertaking the pgce higher education as well as those on cpd courses on teaching and learning in higher education

this book offers an introduction to information technology with regard to peace conflict and security research a topic that it approaches from natural science technical and computer science perspectives following an initial review of the fundamental roles of it in connection with peace conflict and security the contributing authors address the rise of cyber conflicts via information warfare cyber espionage cyber defence and darknets the book subsequently explores recent examples of cyber warfare including the stuxnet attack on iran s uranium refining capability the hacking of the german federal parliament s internal communication system the wannacry malware campaign which used software stolen from a us security agency to launch ransomware attacks worldwide the book then introduces readers to the concept of cyber peace including a discussion of confidence and security building measures a section on cyber arms control draws comparisons to global efforts to control chemical warfare to reduce the risk of nuclear war and to prevent the militarization of space additional topics include the security of critical information infrastructures and cultural violence and peace in social media the book concludes with an outlook on the future role of it in peace and security information technology for peace and security breaks new ground in a largely unexplored field of study and offers a valuable asset for a broad readership including students educators and working professionals in computer science it security peace and conflict studies and political science

this book reviews and examines the quality assurance systems of library and information science lis education in a variety countries and regions including asia north america latin america and europe globalization of education has caused the number of lis professionals working in every region of the world to increase greatly in order to be

qualified as an LIS professional worldwide as well as in a local area it is imperative that there exists a global standard of quality assurance systems for LIS practitioners this book provides such a standard and ranks specific systems and educational programs worldwide with contributions from leading researchers and scholars in a variety of regions across the globe this book will prove an invaluable resource for professionals and educators of LIS education

this book challenges the divide between qualitative and quantitative approaches that is now institutionalized within social science rather than suggesting the mixing of methods challenging the qualitative quantitative divide provides a thorough interrogation of the arguments and practices characteristic of both sides of the divide focusing on how well they address the common problems that all social research faces particularly as regards causal analysis the authors identify some fundamental weaknesses in both quantitative and qualitative approaches and explore whether case focused analysis for instance in the form of qualitative comparative analysis analytic induction grounded theorising or cluster analysis can bridge the gap between the two sides

the history of a radical group of intellectuals who founded the new era fellowship which shaped human rights precedents and social justice policy in south africa in 1937 a group of young capetonians socialist intellectuals from the workers party of south africa embarked on a project they called the new era fellowship nef in doing so they sought to disrupt and challenge not only prevailing political narratives but the very premises class and race on which they were based in different forums public debates lectures study circles and cultural events the seeds of radical thinking were planted nurtured and brought to full flower taking a position of non collaboration and non racialism the nef played a vital role in challenging society's responses to events ranging from the problem of taking up arms during the second world war for an empire intent on stripping people of colour of their human rights to the hertzog bills which foreshadowed apartheid in all its ruthless effectiveness in subsequent narratives of liberation their significance has been overlooked even disparaged and has never been fully understood and acknowledged by shining a contemporary light on the nef and locating its contribution in current sociological and political discourse educationist crain soudien shows how its members were at the forefront of redefining the debate about social difference in a racially divided society
