in recent years the psychology of reasoning has undergone radical change which can only be
seen as a kuhn style scientific revolution this shift has been dubbed new paradigm for years
psychologists of reasoning focused on binary truth values and regarded the influence of belief as
a bias in contrast to this the new paradigm puts probabilities and subjective degrees of belief

centre stage it also emphasises subjective psychological value or utility the way we reason within our own social environment social pragmatics and the crucial role of dual process theories such theories distinguish between fast intuitive processes and effortful processes which enable hypothetical thinking the new paradigm aims to integrate the psychology of reasoning with the study of judgement and decision making leading to a much more unified field of higher mental processing this collection showcases these recent developments with chapters on topics such as the difference between deduction and induction a bayesian formulation of faint praise the role of emotion in reasoning and the relevance of psychology of reasoning to moral judgement this book was originally published as a special issue of thinking reasoning

one of the most controversial issues in our society today especially within evangelicalism is that of the creation evolution debate over the past few decades fundamentalist apologists like ken ham of the young earth creationist organization answers in genesis have made a career convincing people that the age of the earth and the historicity of genesis 1 11 are not just bedrock fundamental tenets of the christian faith but are also crucial fronts in the culture war in the heresy of ham joel edmund anderson convincingly shows that not only are the yecist claims of ken ham unbiblical and unscientific but they have sowed the seeds of strife and division within countless christian communities he should know he lost his job as a biblical worldview teacher at a small evangelical school over the issue of yecism anderson s ultimate message is simple regardless of your position regarding evolution or the interpretation of genesis 1 11 they are not fundamental to the christian faith and should not be used as battlefronts in the culture war if you have always had questions about the creation evolution debate the claims of yecism and the way genesis 1 11 should be interpreted the heresy of ham is a tremendous resource for anyone struggling coming to grips with these issues
