a quote i love horse racing betting systems i repeat this quote in many of my books sorry for being boring i have to cover this early in the book as i believe this is probably overlooked by most punters who continue to lose every day please look at the quote below and ponder on this for 5 minutes and ask yourself a question do you actually do this we are looking for a winner in a race not the winner of a race remember the above quote as most punters fail to understand this quote and this is why they lose money most punters look at the race cards looking for the winner of the race they should be looking for the winner in a race you have to be confident you have spotted a potential winner in a race not of a race you have to be prepared not to have a bet on days when there are no winners in a race remember this chapter it will serve you well non handicap horse races most of my uk horse racing system books have centered around uk handicap horse races this system focuses on non uk handicap races i will explain why i opted for these types of races in handicap races horses are allotted weight in relation to their ability so the best horses are allocated more weight so as to give the inferior horses in the race a chance of winning it is that simple weight is a leveller it slows horses down but it is not that simple as horses can be cleverly placed in races i won t say much more on this but i think you get the point in non handicap uk races it is easier to assess horse form as we do not have to worry about the weight allotted to a horse it s always difficult picking winners for handicap and non handicap races so we must not get complacent let us now look at this brilliant uk horse racing system
