the reign of god constitutes the first detailed and systematic critical engagement with Oliver O'Donovan's political theology it argues that O'Donovan's theological account of political authority is not tenable on the basis of exegetical and methodological problems the book goes on to demonstrate a way to refine O'Donovan's theology of political authority by incorporating insights from his earlier work in moral theology this can provide a cogent basis for thinking that the Christ event redeems the natural political authority embedded in the created

order and inaugurates its new historical bene esse in the form of christian liberalism

work occupies most of our waking time whether it is in a factory office school or at home but unfortunately most people of faith separate their working life from their worshipping life dualism is a pernicious heresy that has infected believers worldwide namely that church work and missionary service are holy and our everyday work is secular in this timely volume stevens explores the connection of the kingdom of god the master thought of jesus with the marketplace traditionally people have either related the kingdom of god god s new world coming either exclusively for the present or only for the distant future but it is both now and coming this gives meaning hope and endurance to our work in the world so daily labor in the marketplace gets reoriented through salty values and ingrained virtues we become double agent spies exploring the new world coming in everyday life we can also grapple helpfully with the resistance we face daily in the workplace there are many books on the kingdom of god and many on work few have brought these two vital arenas of everyday service together it is indeed part of the good news

what this book argues for in today s twenty first century church was a hallmark doctrine of old school presbyterianism of the nineteenth century the doctrine of the spirituality of the church which eschatological approach one uses will affect one s understanding of the nature and practice of missions mission creep the expansion of the church s original objective s is a real concern for the contemporary church and how one understands eschatology affects one s focus on missions the mission of the church is narrow matt 28 18 20 and the calling of individual believers is broad rom 12 1 2 if we fail to make this crucial distinction the church s mission will lose its biblical emphasis and if the church s mission is lost then the authority structure instantiated in the offices and officers of the church devolves into illegitimacy because the church is no longer advancing the kingdom ends she was mandated to do by king jesus if the institutional church fails to do this we will be relinquishing and abdicating and abandoning our most singular and particular and peculiar kingdom of god vocation the harvesting gathering and perfecting of the saints

anthony hoekema brings to the study of biblical prophecy and eschatology a maturity that is rare among contemporary works on the subject free of sensationalism he evinces a reverence for the scriptures and a measured scholarship one of the best studies on eschatology available christianity today

in this exciting volume a renowned new testament scholar provides his lectures on new testament theology and provides us a window on his approach on a variety of issues he describes the task as follows new testament theology is the art of giving coherence to the collective witness of the twenty seven new testament documents as they attest to the christian faith while not sacrificing the historical particularity of any one text or author within the canon and to do this as clearly as possible and with as much consistency and unity as possible new testament theology deals with all the new testament we must resist the tendency to find a canon within the canon or to neglect some lesser figures in the new testament canon new testament theology is first of all a descriptive task i e we must first try to describe what is there but given our stance toward scripture what we describe also becomes prescriptive or normative we must never forget that the writings of the new testament are ad hoc documents written in each and every case to speak to a specific need thus rather than careful systematic presentations of theology such as in a book or a lecture the earliest christian theology is worked out in the marketplace as it were therefore we must be careful not to force the new testament writers to answer all of our questions nor even to use our logic or thought forms excerpted from chapter 1

the idea of the united states as a christian nation is a powerful seductive and potentially destructive theme in american life culture and politics and yet as richard t hughes reveals in this powerful book the biblical vision of the kingdom of god stands at odds with the values and actions of an american empire that sanctions war instead of peace promotes dominance and oppression instead of reconciliation and exalts wealth and power instead of justice for the poor and needy with extensive analysis of both christian scripture and american history from the founding of the republic to the present day christian america and the kingdom of god illuminates the devastating irony of a christian america that so often behaves in unchristian ways
