from the time when we started collaborating as a team in the 1960s we envisaged not a grammar but a series of grammars in 1972 there appeared the first volume in this series a grammar of contemporary english gce this was followed soon afterwards by two shorter works a communicative grammar of english cge and a university grammar of english uge published in the united states with the title a concise grammar of contemporary english with a comprehensive grammar of the english language we attempt something much more ambitious a culmination of our joint work which results in a grammar that is considerably larger and richer than gce and hence superordinate to it yet as with our other volumes since gce it is also a grammar that incorporates our own further research on grammatical structure as well as the research of scholars worldwide who have contributed to the description of english and to developments in linguistic theory preface

excerpt from a comprehensive grammar of the english language for the use of schools in regard to the arrangement of matter eu important item i venture to claim for the book a superiority over every other of its kind it is well known that science and literature languished until bacon and shakespeare emancipated them from the thralldom of ancient opinions and as latin grammars were first made and english grammars modeled after them the latter have probably suffered from a similar dominion a language that has many inflections may well have its etymology taught as a separate branch but a language like ours whose actual inflections might all be printed on two or three pages needs to such treatment besides words have etymology because they have syntax the very existence of the one implying the other and to stop with etymology is to leave the work half finished the greatest stickler for separating them in our language has failed to draw the dividing line and much of the etymology taught in our grammars as in the cases of nouns is sheer syntax every teacher of experience too must have observed how wearisome to pupils is the long desert of etymology before they see its application in syntax and then they often do not get the full benefit of this because they have but a faint and confused recollection of the other moreover by the usual system almost the whole grammar must be learned before any practical benefit is derived from it and as children in many parts of the country can attend school only a part of each year the consequence is that they begin their grammar anew from year to year get tired of its technical jargon and derive at last but little benefit from the study by the arrangement in this treatise each section bears its own fruit and will be of permanent value whether any further progress is made or not the book too can be more conveniently resumed at the beginning of any section parsing and analysis have not only been made full but stripped of much superfluous machinery doctrines and classifications have in many places been simplified and abridged and for some of the insufficient articles in our

grammars have been substituted others that are altogether more substantial the book comprises both a primary and a higher grammar and is in the highest ruse progressive and philosophical it is built up in part first by a regular synthesis from the alphabet to analysis in part second from pronunciation to versification and closes with a thorough and well authorized section on punctuation as teaching the finish to the whole in other grammars most of the doctrine is printed in small type and the exercises are printed in larger this may be more agreeable to the teacher but it is less so to the learner i have given the main principles first in large type and apart from the examples then the exercises in type sufficiently large and lastly the unimportant doctrine in smaller type under the head of observations and at the end of each section the best modes of teaching and learning have been constantly kept in mind but of course no reasonable teacher or learner will imagine that the grammar of a mighty language of a language that reaches into every fibre of human knowledge can be learned without labor or in six lessons 1 a full preface explanatory and defensive would require many pages i therefore leave the work without further remark to the candor judgment and research of the reader about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](http://forgottenbooks.com)

dutch a comprehensive grammar is a complete reference guide to modern dutch grammar this completely updated new edition covers the new spelling system introduced in 1997 and the latest reform of 2005 a new section covers modal particles concentrating on the real patterns of use in modern dutch through lively and accessible descriptions of the language the grammar is an essential reference source for the learner of dutch irrespective of level it is ideal for use in schools colleges universities and adult classes of all types as well as being indispensable to those teaching themselves the volume is organized to promote a thorough understanding of dutch grammar it offers a stimulating analysis of the complexities of the language and provides full and clear explanations throughout the emphasis is on dutch as used by present day native speakers an extensive index and numbered paragraphs provide readers with easy access to the information they require features include detailed treatment of the common grammatical structures and parts of speech extensive exemplification particular attention to areas of confusion and difficulty dutch english parallels highlighted throughout the book

japanese a comprehensive grammar is a thorough reference guide to modern japanese grammar with its detailed treatment of all grammatical structures it explores the complexities of the language fully concentrating on the real patterns of use in contemporary japanese as spoken and written by native speakers this edition has been fully updated throughout incorporating a new structure now organised by topic and providing specific attention to areas of particular difficulty examples have been updated throughout to reflect current usage and a glossary of linguistic terms has been added features include clear grammar points put into context using examples from a range of japanese media inclusive coverage of both colloquial and standard japanese extensive cross referencing in all parts of the book a detailed index of japanese and english terms written by experts in this field japanese a comprehensive grammar will be an essential reference source for the learner and user of japanese at all levels
