questions regarding the economic consequences of various forms of regime have puzzled development researchers for many years this book examines the theoretical debate as a starting point for in depth case studies of four countries india china taiwan and costa rica the case studies are used as a basis for a number of new conclusions about the circumstances under which a specific form of regime has certain consequences for economic development the implications of these results for other third world countries democratic and authoritarian are addressed in the final chapter

a theoretical and empirical examination of why political institutions and organizations matter in economic growth

the essays in this volume explore several key issues facing democracies today they discuss the dilemma of how to protect civil liberties and individual freedoms in the light of external threats and assess the policies adopted by governments in this area the book also addresses the question of how free exactly free markets should be in an economy in order to secure social peace before going on to highlight the rudiments of the model of social market economy as applied in germany it examines the problem of the democratic and legitimacy deficits that beset european integration and suggests reforms for a more democratic european union last but not least by looking back in history they provide evidence and propose policies for the revitalization of institutions in present day democracies the book is of considerable interest to researchers and students in economics and political science as well as to readers who wish to gain insights into the thorny social issues involved

the relationship between economic development and political systems is of major importance in today s rapidly changing world this is the issue addressed in this volume by an international team of academics drawn from the social sciences the chapters range from a theoretical exploration of the measurement of development and collective well being under both democracy and dictatorship to case studies of the workings of different political regimes around the world of particular interest are models of political and economic equilibrium in procedural democracies and the detailed exploration of the working of

economic systems that have operated as formal democracies for some time specialists in comparative analysis will find the chapters on the prospects for democracy and development in countries such as china south africa and eastern europe of special interest

since the very beginnings of economics as a science which might be dated from ibn khaldun s introduction to history 1377 the challenge of making societies escape from poverty and attain some degree of prosperity has always been and can remain a fundamental issue this book presents research on each of these issues

in recent years debates within academic and policymaking circles have gradually shifted from a cold war focus on whether democracy constitutes the best form of governance to the question of whether and to what degree international actors should be actively involved in democracy promotion this book offers the first comprehensive analysis of international efforts to promote democracy during the post world war ii period with an emphasis on developments since 1989 the authors assess the efforts of major industrialized democracies multilateral actors and ngos they find that the success of these endeavors is constrained by several realities ranging from the often significant gap between the rhetoric and the reality of actual policies to the dilemma that occurs when the goal of democracy clashes with other foreign policy interests the first comprehensive analysis of international efforts to promote democracy during the post world war ii period with an emphasis on developments since 1989

since the global financial crisis of 2008 advanced economies have been making various efforts to overcome the economic impasse while the contrast between the countries that have escaped from the crisis relatively quickly and those still suffering from serious problems is becoming clearer a new economic crisis stemming from newly emerging economies has again impacted advanced economies in retrospect both leftist and rightist governments in advanced economies pursued expansive macroeconomic and welfare policies from the post wwii period to the oil shocks of the 1970s while we recognise that the particular policy regime in this golden decades during which the left and the right implemented similar policies cross nationally were characterised by outstanding economic growth in each country the specific growth patterns varied across countries different social coalitions underpinned different growth models this book is premised on tentative conclusions that magara and her research collaborators have reached as a result of three years of study related to our previous project on economic crises and policy regimes recognising the need to analyse fluid and unstable situations we have set up a new research design in which we emphasise political variables whether political leaders and citizens can overcome the various weaknesses inherent in democracy and escape from an economic crisis by establishing an effective social coalition a new policy regime can be stable only if it is supported by a sufficiently large coalition of social groups whose most important policy demands are satisfied within the new policy regime

regional development agencies and the local democracy economic development and construction bill fourth report of session 2008 2009

why some of asia s authoritarian regimes have democratized as they have grown richer and why others haven t over the past century asia has been transformed by rapid economic growth industrialization and urbanization a spectacular record of development that has turned one of the world s poorest regions into one of its richest yet asia s record of democratization has been much more uneven despite the global correlation between development and democracy why have some asian countries become more democratic as they have grown richer while others most notably china haven t in from development to democracy dan slater and joseph wong offer a sweeping and original answer to this crucial question slater and wong demonstrate that asia defies the conventional expectation that authoritarian regimes concede democratization only as a last resort during times of weakness instead asian dictators have pursued democratic reforms as a proactive strategy to revitalize their power from a position of strength of central importance is whether authoritarians are confident of victory and stability in japan south korea and taiwan these factors fostered democracy through strength while democratic experiments in indonesia thailand and myanmar were less successful and more reversible at the same time resistance to democratic reforms has proven intractable in singapore malaysia hong kong china vietnam and cambodia reconsidering china s 1989 crackdown slater and wong argue that it was the action of a regime too weak to concede not too strong to fail and they explain why china can allow democracy without inviting instability the result is a comprehensive regional history that offers important new insights about when and how democratic transitions happen and what the future of asia might be

examines the sources of democracy the relationship between economic development and thresholds of democracy and responses to democratization

unlock the intricate dance between economic emergence and the quest for freedom with the development democratization conundrum this stimulating ebook invites you on an intellectual journey to discover how nations navigate the complex interplay of growing wealth and democratic ideals a challenge faced by societies worldwide embark on a comprehensive exploration beginning with foundational concepts of economic growth and democratic governance delve into historical perspectives that trace the evolution of these themes setting the stage for an in depth discussion on contemporary theoretical frameworks unravel the engines driving economic change and examine how these forces reshape the very fabric of political landscapes witness democracy in action through illuminating case studies from the rise of industrial titans to the subtle shifts within service economies this book vividly paints the global trends shaping our world the role of institutions takes center stage offering insights into how economic and political frameworks evolve in tandem nurturing the seedlings of democracy in emerging societies the journey continues with a critical look at the conundrum of authoritarian growth the perils of the middle income trap and the socioeconomic undercurrents that challenge democratic stability discover the nuances of inequality as a political hurdle and consider strategies to overcome systemic barriers in an era of rapid technological advancement explore how innovation serves as both a catalyst for growth and a new frontier for digital

democracy wrestle with the pervasive shadows cast by corruption and find hope in cultural forces driving political change the development democratization conundrum offers a rich mosaic of insights and policy recommendations guiding readers towards informed strategies for balancing progress and governance this is not just an ebook but a roadmap for understanding the profound yet delicate nexus between economic development and the democratic spirit dive in and be part of the ongoing dialogue shaping our future

exploring and updating the controversial debates about the relationship between democracy and development this research handbook provides clarification on the complex and nuanced interlinkages between political regime type and socio economic development distinguished scholars examine a broad range of issues from multidisciplinary perspectives across africa asia europe latin america and the middle east

this book focuses on the history key industry and policy actors and political economic outcomes in oil producing african states filling a gap in the literature on resource abundant countries by providing an optimistic assessment of circumstances in contemporary africa

for decades policies pursued by the us and other industrialized nations towards the developing world have been based on the belief that democracy and development don t mix this book makes a bold case that they do

established at the school for oriental and african studies in london in 1990 the centre for islamic and middle eastern law cimel promotes the study and understanding of islamic law and modern middle east legal systems over the years the centre has developed a vast network of practitioners and scholars who participate in seminars and conferences on highly topical legal issues in the middle east by engaging this network cimel has created an important forum for discussion on these issues the cimel book series reflects these unique discussions on such topics as on the legal aspects of the peace process or the role of the courts in the preservation of human rights and also includes monographs on related topics by leading experts in the field

the world s attention to the countries of the middle east and north africa mena region has often been dominated by headline issues conflict sanctions political turmoil and rising oil prices little of this international attention has considered the broad range of development challenges facing this diverse group of countries breaking the barriers reflects the collected thinking of the world bank s office of the chief economist for the mena region on the long term development challenges facing the region and the reform priorities and strategies for effectively meeting these challenges it

explores some central tenets of modern economics subjecting them to trenchant examination including the case for free trade and the inevitability of ever more grotesque income inequalities the book argues that there is a feasible alternative in a democratically controlled economic strategy
