it was forty two years ago that winston churchill made his famous speech in fulton missouri in which he popularized the phrase iron curtain this

speech according to fraser harbitt set forth the basic western ideology of the coming east west struggle it was also a calculated move within and a dramatic public definition of the truman administration s concurrent turn from accommodation to confrontation with the soviet union it provoked a response from stalin that goes far to explain the advent of the cold war a few weeks later this book is at once a fascinating biography of winston churchill as the leading protagonist of an anglo american political and military front against the soviet union and a penetrating re examination of diplomatic relations between the united states great britain and the u s s r in the postwar years pointing out the americocentric bias in most histories of this period harbitt shows that the europeans played a more significant part in precipitating the cold war than most people realize he stresses that the same pattern of events that earlier led america belatedly into two world wars namely the initial separation and then the sudden coming together of the european and american political arenas appeared here as well from the combination of biographical and structural approaches a new historical landscape emerges the united states appears at times to be the rather passive object of competing soviet and british maneuvers the turning point came with the crisis of early 1946 which here receives its fullest analysis to date when the truman administration in a systematic but carefully veiled and still widely misunderstood reorientation of policy in which churchill figured prominently led the soviet union into the political confrontation that brought on the cold war

sosa siliezar investigates the presence and significance of creation imagery in the gospel of john he argues that john has intentionally included only a limited albeit significant number of instances of creation imagery and that he has positioned them carefully to highlight their significance

sosa siliezar contends that the instances of creation imagery used in varying contexts function collectively in a threefold way that is consonant with john s overall argument first john uses them to portray jesus in close relationship with his father existing apart from and prior to the created order second john uses creation imagery to assert the primal and universal significance of jesus and the message about him and to privilege him over other important figures in the story of israel third john uses creation imagery to link past reality with present and future reality portraying jesus as the agent of creation whom the reader should regard as the primal agent of revelation and salvation the book concludes by underscoring how these findings inform our understanding of john s christology and johannine dualism
