gray and harrison have assembled an impressive array of authors to analyse the changing role of the medical profession the contributions range from historical analyses of the relationship between government and doctors to detailed examination of the implementation of clinical governance in the NHS all offer important

insights into an issue that lies at the heart of contemporary debates in health policy. Chris Ham, University of Birmingham, brings together the most pertinent discussion on clinical governance by some of the most eminent practitioners and researchers in the United Kingdom since New Labour's institution of clinical governance through its White Paper in 1997. There has been a good deal of debate about the history, theory and practice of clinical governance and the governance of clinical care divided into three parts. The book contains sections on medicine, autonomy and governance, evidence science and medicine, realizing clinical governance, starting with the differing definitions of the term clinical governance. The contributors discuss the relationship of medicine and governance, the challenges that evidence-based medicine makes upon clinical practice and move on to suggest possible futures for clinical governance. Written by a team of experienced academics and practitioners, this book is aimed at reflective health professionals as well as students and academics in the fields of health policy, health services management, social policy and public policy. Contributors: Marian Barnes, Andy Bilson, David Byrne, Barbara Coyle, Pieter Degeling, Tracy Finch, Rob Flynn, Andrew Gray, Steve Harrison, Rick Iedema, John Kennedy, Fergus Macbeth, Frances Mair, Sharyn Maxwell, Carl May, Michael Moran, Maggie Mort, Nancy Redfern, Chandra Vanu Som, Jane Stewart, Barbara Telfer, Stephen Watkins, Sue White.

Theory and Practice of Sociocriticism was first published in 1988. Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original. University of Minnesota Press Editions. Edmond Cros is a leading French Hispanicist whose work is unique in continental theory because it brings Spanish and Mexican texts into current literary debates which have so far centered mainly on the French and German traditions. Equally distinctive is the nature of his work which Cros terms sociocriticism. Unlike most sociological approaches to literature which leave the structure of texts untouched, sociocriticism aims to prove that the encounter with ideological traces and with antagonistic tensions between social classes is central to any reading of texts. Cros's method distinguishes between the semiotic and ideological elements within a text and involves the patient exacting reconstruction of the concrete text from these elements, a process that enables the sociocritic to interpret its fault lines, its internal contradictions, in the end its irreducibly social nature. As its title suggests, Theory and Practice of Sociocriticism is structured in two parts. Its opening chapters analyze sociological theories of discourse including those of Foucault, Bakhtin and Goldman. In the second part, Cros applies theory to practice in readings of specific works: the film *Scarface*, contemporary Mexican poetry and prose, Octavio Paz, Carlos Fuentes and the picaresque novel of the Spanish Golden Age. In their foreword, Jürgen Link and Ursula Link Heer differentiate sociocriticism from other social approaches to literature and show how Cros's method works in specific textual readings. They emphasize his resistance to the reductive modes and misreadings that dominate much of contemporary theory. Edmond Cros is a professor of literary theory and Hispanic studies at the Université Paul Valéry in Montpellier, France, and Andrew W. Mellon Professor of Hispanic Studies at the University of Pittsburgh. Jürgen Link teaches at the Ruhr Universität Bochum and Ursula Link Heer at the Universität Siegen, both in West Germany.
