of human consciousness lead to different theories of rhetoric and for every major school of thought another school of thought forms in reaction classic and contemporary examples demonstrate the usefulness of rhetorical theory especially its ability to inform and guide by providing probes for rhetorical criticism discussions also demonstrate that rhetorical criticism illustrates verifies and refines rhetorical theory thus the synergistic relationship between theory and criticism in rhetoric is no different than in other arts theory informs practice analysis of successful practice refines theory smith s absorbing study has been expanded to include thorough treatments of rhetoric in the romantic era feminist and queer theory and historical context for the creation of rhetorical theory and its use in public address

how the stereotypes of construction workers and their overt displays of sexism racism physical strength and homophobia are not just how they are but rather culturally and structurally mandated enactments of what it means to be a man and a worker in america the significance of these worker performances is particularly clear in relation to occupational safety when the pressures for demonstrating physical masculinity are combined with a lack of protection from firing workers are forced to ignore safety procedures in order to prove whether male or female that they are man enough to do the job thus these mandated performances have real and sometimes deadly consequences for individuals the entire working class and the strength of the union movement paap concludes that machismo separates the white male construction workers from their natural political allies increases their risks on the job plays to management s interests lowers their overall social status and undercuts the effectiveness of their union
