when was the last time you shook up your writing instruction in renew become a better and more authentic writing teacher author shawna coppola builds on the premise that our students are ever changing and so is our collective knowledge base instructional strategies that have worked in the past may need to evolve accordingly coppola guides k 8 writing teachers with a three part framework for rethinking revising and renewing their approaches and finding new energy along the way using the framework renew examines the most pervasive educational practices in writing instruction and poses questions that guide teachers to revise those practices to ensure they are effective for all students coppola believes the work is challenging yet critical referencing r buckminster fuller s knowledge doubling curve according to fuller s paradigm the amount of time it takes for us to increase our collective knowledge base by 100 percent will continue to shrink the older we get if this is true or even close to being true show can we as educators ever feel satisfied with teaching our students the same concepts using the same methodologies and practices that we have in the past the book offers a road map for renewing key aspects of our practice including how we teach the writing process over time and frequent usage some of our favorite teaching strategies can become rigid coppola gives a candid account of how her enthusiasm for the writing process as an undergraduate led her to teach writing for years as a set of pre determined steps now she teaches that there are many variations of the writing process and many twists and turns along the path one foundational strategy used is opening up her own process as a writer and her writer s notebooks to students and encouraging them to think and talk about their process with classmates what we mean by writing coppola argues that drawing isn t an accompaniment to writing it is writing it s another form of composition through which students can tell stories convey ideas and engage readers the book is full of visual compositions by students as well as shawna s wonderfully simple and evocative sketches from her writer s notebook the tools we use to teach writing the most ubiquitous tools used to teach writing from

anchor charts to graphic organizers to sentence starters etc tend to be teacher centric rather than student centric renew invites students into the process of constructing tools that are meaningful and helpful to them the book includes a range of examples of tools built collaboratively with students how we assess and evaluate student writing coppola draws a distinction between assessments which should be an interactive conversation with students and evaluation which is about judging and categorizing what students know and can do renew offers a range of examples and resources that illustrate effective feedback for student writers including online videos of teacher student and peer to peer conferences renew also offers ideas for how teachers can nurture their own writing lives and thus reinvigorate their instructional practice through rethinking revising and renewing their practice teachers can not only strengthen students skills as writers but also nurture students to become critical thinkers problem solvers and risk takers in the classroom and in our rapidly changing world

it just happened there they were shouting put it in a book the research is significant the magazine grade teacher devoted the whole issue to the research what is significant is that we can teach for thinking we can improve our pupils cognitive skills be they decision making creativity analysis problem solving inductive and deductive reasoning as well as concept development to mention just a few it all began when i had given a presentation at the ascd convention addressing over 500 educators following a nine year study on inquiry and cognitive centered teaching funded by the ford foundation and now found myself mobbed by publishers to put it in a book the book was written in ten weeks and it sold and sold and sold one hundred thousand copies and was translated into many foreign languages this resulted in teaching pupils at all grade levels to process information to develop conceptual frameworks and in depth understanding of the content in all disciplines be it mathematics the sciences the social science music and the arts learners developed and grew concepts and conceptual frameworks and really understood the material as opposed to mouthing memorized sequences of words let me show you what i am trying to convey i visited a first grade class and there they were singing praises to two chanting one and one is two then it happened one little boy raised his hand and blurted out what s a two we live in a conceptual world whether we are teaching kindergarten children their abcs or graduate students advanced mathematics we must teach so that they truly understand what they are

talking about so that they can develop concepts simple concepts first and then more intricate concepts that my friends is what learning is all about my career has spanned over sixty years spent examining researching developing writing and teaching various methods teachers can use to educate our children more effectively so here it is an updated version of the original book designed for the digital age and our digital destiny providing our new generation with the critical cognitive skills to deal with a very challenging future the processes and strategies are clearly delineated and applicable to every discipline at every level of instruction these have been researched and evaluated in sum the world has become far more complex than any of us as educators could have envisioned we are being deluged with the new the unknown we will need thinkers and problem solvers teach them all to think need i say more

when danny gregory s life was turned upside down by tragedy he learned to cope by teaching himself to draw the result was a complete transformation of his life his priorities his career and the way he saw the world in handwritten chapters full of his lush watercolor illustrations danny now offers readers a program for reconnecting to their own creative energies using drawing as an example he gently instructs us in the art of allowing ourselves to fail giving up the expectation of perfection and opening our eyes to the beauty around us the result is the permission to express ourselves fully and take part in the creative process without fear artist or not readers of all stripes will find inspiration in this unique and beautiful book
