the middle school years are a maze of academic duties human growth and self development discovering self identity and increasing social interaction with other people this maze can be an adventure of achievement and opportunity or it can be a struggle of difficulty and disappointment as these experiences are the impetus or foundation for many

later achievements in academics careers and personal life it is imperative that educators maximize these formative years by helping middle school students successfully travel through this maze despite its ups and downs its twists and turns and its new challenges to master and the old issues to resolve for instance educators must support students who have fallen behind so as to thwart their reduced likelihood of turnaround in high school likewise educators must challenge exceptional students in order to perpetuate their enthusiasm for learning and prepare them for college studies by discussing the comprehensive roles and duties of school administrators counselors and teachers the power of middle school addresses how to maximize middle school curriculum and extra curricular activities for the academic personal and professional benefits of all students

a sober yet encouraging look at how urban public schools have confronted challenges defied expectations and continued to improve

this report explores the association between school innovation and different measures related to educational objectives

for more than two generations the traditional urban school system the district has utterly failed to do its job prepare its students for a lifetime of success millions and millions of boys and girls have suffered the grievous consequences the district is irreparably broken for the sake of today s and tomorrow s inner city kids it must be replaced the urban school system of the future argues that vastly better results can be realized through the creation of a new type of organization that properly manages a city s portfolio of schools using the revolutionary principles of chartering it will ensure that new schools are regularly created that great schools are expanded and replicated that persistently failing schools are closed and that families have access to an array of high quality options this new entity will focus exclusively on school performance meaning among other things our cities can thoughtfully integrate their traditional public charter public and private schools into a single high functioning k 12 system for decades the district has produced the most heartbreaking results for already at risk kids the urban school system of the future explains how we can finally turn the tide and create dynamic responsive high performing self improving urban school systems that fulfill the promise of public education

select the right task at the right time for the right phase of learning it could happen in the morning during homework review or perhaps it happens when listening to students as they struggle through a challenging problem or maybe even after class when planning a lesson at some point the question arises how do i influence students learning what s going to generate that light bulb aha moment of understanding in this sequel to the megawatt best seller visible learning for mathematics john almarode douglas fisher nancy frey john hattie and kateri thunder help you answer that question by showing how visible learning strategies look in action in the mathematics classroom walk in the shoes of middle school teachers as they engage in the 200 micro decisions per minute needed to balance the strategies tasks and assessments seminal to high impact mathematics instruction using grade leveled examples and a decision making matrix you ll learn to articulate clear learning intentions and success criteria at surface deep and transfer levels employ evidence to guide students along the path of becoming metacognitive and self directed mathematics achievers use formative assessments to track what students understand what they don t and why select the right task for the conceptual procedural or application emphasis you want ensuring the task is for the right phase of learning adjust the difficulty and complexity of any task to meet the needs of all learners it s not only what works but when exemplary lessons video clips and online resources help you leverage the most effective teaching practices at the most effective time to meet the surface deep and transfer learning needs of every student
