in recent years information and communication technologies icts have been linked with socioeconomic development with the assumption that they can be harnessed for economic growth in developing countries and facilitate integration into the global information society however very few studies in the ict for development field examine the direct connections between icts and socioeconomic growth information and communication technologies in nigeria prospects and challenges for development is a compelling account of the

development of icts in nigeria it examines the ict policy framework and the societal context within which application of the technologies emerged and highlights the potentials of icts in socioeconomic development however this book also demonstrates through interviews and case studies that icts are not the panacea to underdevelopment constraining factors in different countries can limit their capacity to succeed the author employs a rare multidisciplinary approach that makes the book appealing and accessible to a diverse range of readership

this book brings together authors from around the world to discuss the standards for technological and engineering literacy the role of technology and engineering in stem education stel released in july 2020 by the international technology and engineering educators association iteea the various chapters examine and elaborate on how educators must understand the structure of the standards used and their alignment with educational programs at specific levels and contexts both in the context of the usa and internationally it also showcases case studies analyzing the use of standards in their various contexts from a number of countries which have either adapted stel or which have national standards in technology education the stel represents a major update to the content standards that has guided the field of technology education and later technology and engineering education in the usa since 2000 in contrast to previous standards stel presents a substantial reduction in the number of standards and associated benchmarks and the benchmarks have been operationalized to identify the key knowledge skills and dispositions associated with each standard it also emphasizes a focus on core standards that should allow for deeper levels of understanding and engagement on the part of students who in comprehensive educational programs will continue to revisit these core standards in increasingly sophisticated ways as they progress from pre k through grade 12

this book provides a systematic examination of the relationship between industrial clusters and poverty which is analyzed using a multidimensional framework it examines the often neglected concept of social protection as a means of mitigating the risks and vulnerabilities faced by workers and citizens in poor countries by analyzing the case of the otigba information and communications technology cluster in lagos nigeria the author shows under which conditions firms in productive clusters can pass on benefits to workers in ways that improve their living standards in the wider socio economic and spatial context of the region the results presented provide substantial evidence of opportunities for economic development helping planners to explore different avenues for integrating firm driven social protection into social policy

it is becoming known that information and communications technology has the potential to increase development in the areas of health education governance and business in impoverished countries thus new levels of integration and applications must be studied in order to expand this research area further sustainable ict adoption and integration for socio economic development is a pivotal publication featuring the latest scholarly research on current updates regarding adoption integration and application of communication devices and applications across the various aspects of human progression highlighting a number of topics and perspectives such as inclusive education e governance and e democracy this book is ideally designed for researchers government officials and academicians seeking current

information on the application of new technological tools for both social and economic growth in various countries

comprehensive coverage of critical issues related to information science and technology

first published in 1971 this major bibliography devoted to africa s most populous country nigeria is therefore a timely contribution which must be welcomed by all the bibliography of nigeria contains over 5 400 entries in archaeology all branches of anthropology linguistic and relevant historical and sociological studies many of the entries carry indicative or informative annotations which have greatly enhanced the usefulness of the work the history and culture of africa constitutes a rich area of study and research which is attracting an ever increasing number of scholars the world over the new impetus which african studies is receiving in the major centre of learning today has added urgency to the long neglected problem of bibliographical control of the vast literature the dearth of bibliographies in the field of african studies has been a main source of frustration to all those working in this area the book is divided into two parts part one deals with nigeria as a whole and lists general works or those concerned with several regions or several ethnic groups part two is devoted to the various ethnic groups an analytical table of contents a comprehensive ethnic index an author index and an index of islamic studies together with generous cross referencing ensure ready and easy location of individual entries
