well as fascinating historical background and key details about their most important works giving readers broad coverage that addresses the major aspects of the band's and its individual members' phenomenal achievement. The easy-to-use A-Z resource also includes a biographical chronology and a discography as well as a bibliography that directs readers to excellent sources of additional information in print and online.

The aim of this volume is to discuss recent research into self-experience and its disorders and to contribute to a better integration of the different empirical and conceptual perspectives. Among the topics discussed are questions like: what is a self? what is the relation between the self-givenness of consciousness and the givenness of the conscious self? how should we understand the self-disorders encountered in schizophrenia and what general insights into the nature of the self can pathological phenomena provide us with? Most of the contributions are characterized by a distinct phenomenological approach. The chapters by Butterworth, Strawson, Zahavi, and Marbach are general in nature and address different psychological and philosophical aspects of what it means to be a self. Next, Eilan Parnas and Sass turn to schizophrenia and ask both how we should approach and understand this disorder and more specifically what we can learn about the nature of selfhood and existence from psychopathology. The chapters by Blakemore and Gallagher present a defense and a criticism of the so-called model of self-monitoring, respectively. The final three chapters by Cutting, Stanghellini, Schwartz, and Wiggins represent anthropologically oriented attempts to situate pathologies of self-experience. Series B

Difficult Times: A Fresh Look at Democracy in Modern America is a book on why America is so distressed, angry, and divided and why our politics are so badly broken. It delves more deeply than conventional works into the issues we face and our political troubles to offer a fresh look to understand why we are in such difficult straits. America has always been a nation of doers, ready and mostly able to fix what needs fixing, but not now. Why can't we get at solving our major problems? Why are our politics so starkly split and dysfunctional? Why are we on all parts of the political spectrum so angry, insecure, decreasingly tolerant, and increasingly dogmatic? We need to know you can't fix what you don't understand, but we have not understood what ails democracy in modern America. We need a fresh look at how and why we have gotten here to seek the underlying causes of the angry national malaise that is what *Difficult Times* seeks to do. In a very few words, what ails modern America are the interlocking effects of the ideas, economy, and culture and politics of the modern world. There are three sets of causes which, like some chemicals in a test tube, are more combustible together than alone. First, the dominant ideas of the modern world—view, secular materialism, and the contemporary form of individualism—have wounded the psyche, and if one can be so bold as to use the word, the souls of many Americans. Secular materialism is at odds with faith, spirituality, and religion. Contemporary individualism makes it easy to avoid personal responsibility and self-reliance. These ideas have alienated and angered many traditional and religious Americans and have left holes in the hearts of many who are not. They have led to divisive changes in the old national moral code. Moreover, our economic and political thinking has been taken over by an extreme free market ideology which Adam Smith would have disdained. The second set of causes is the result of the forces of modern mass society and culture. For a majority of Americans, even before the Great Crash, the American economy was not working nearly as well as advertised. Growing disparities in levels of income and wealth have created a class society in which the American dream has receded. For much of the country, we feel at sea in the gales of mass culture, rapid change, and lost community. Among other things, it is hard to be the active citizens the founders considered the bedrock of the new republic when

public affairs are dominated by mass media and money and the sense of local and national community have been much diminished the third set of causes is what has happened to american politics we are discomfited because our democracy is working poorly our politics polarized angry and dysfunctional the republicans captured by the hard right while liberalism alienated itself from a large part of the country including much of its old constituency the nation s major problems are solvable with political will and skill but our political system seems incapable to address them our politics and government have become dangerously dysfunctional the forces which have bedeviled us as people and citizens have corroded the quality and democratic nature of our government we have been dangerously drifting quite far from lincoln s ideal our ideal of government of the people by the people and for the people the book is motivated by hope and by compassion the compassion is to grasp why people are so distressed to be able to feel what is driving americans on all parts of the political spectrum to so much anger intolerance and fear the hope is twofold that despite the depths of our difficulties understanding can help us find our way and that if we adjust our ideas and adopt better policies we can redeem the american dream from kirkus review insightful study of america offering a blueprint for change a coup presenting a critical but fair evaluation of american society from evangelicals to liberals leMBERG has produced a book that may appeal to both sides he dissects our dystopia into three core ideas secular materialism extreme individualism and free market ideology and offers hope by actions that require enlightened thinking informative and dire but hopeful it will open minds and very likely change some
