this book is the first one to describe the entire history of the video game industry in japan the industry consists of multiple markets for pcs home consoles arcades cellular phones and smart phones and it is very difficult to see the complete picture the book deals comprehensively with the history of the japanese game industry from the beginning of the non computer age to the present the video game industry in japan was established in the arcade game market when space invaders was released by taito in 1978 game markets for both pcs and home consoles followed in the early 1980s the platform that occupies a central market position started with the arcade and shifted in order to the home console handheld consoles and smart phones in the video game industry in the twentieth century each platform had a clear identity and the relationships among platforms were interactions in the twenty first century with the improvement of computer performance the platform identity has disappeared thus the relationship among platforms is highly competitive since the crash of 1983 in the united states the japanese game industry has one of the largest market shares in the world and has developed without being influenced by other countries it reached its peak in the late 1990s and then its relative position

declined due to the growth of foreign markets and the failure of emerging markets such as online pc games even today japan s gaming industry holds a dominant position in the world but it is not the superpower it once was since the beginning of the twenty first century game research has become active worldwide among game researchers there is a large demand for research on games in japan but there is still little dissemination of research in english the original version of this book published in japan is highly regarded and received an award for excellence from the society of socio informatics in 2017

textbooks in history geography and the social sciences provide important insights into the ways in which nation states project themselves based on case studies of france germany the netherlands spain greece turkey bulgaria russia and the united states this volume shows the role that concepts of space and time play in the narration of our country and the wider world in which it is located it explores ways in which in western european countries the nation is reinterpreted through european lenses to replace national approaches in the writing of history on the other hand in an effort to overcome eurocentric views world history has gained prominence in the united states yet again east european countries coming recently out of a transnational political union have their own issues with the concept of nation to contend with these recent developments in the field of textbooks and curricula open up new and fascinating perspectives on the changing patterns of the re positioning process of nation states in west as well as eastern europe and the united states in an age of growing importance of transnational organizations and globalization
