western civilization was built on the concept of god today modern science based on the critical method and so called objective facts denies

even the existence of our soul there is only matter atoms molecules and dna sequences there is no freedom there are no well grounded beliefs the decline of western civilization is not the simple consequence of decadence hedonism and malevolence modern critical science has liberated us from the old dogmas but failed to establish our freedoms values and beliefs however human knowledge is not objective but personal we are the children of evolution everybody sees the world from his own personal point of view anchored into his her body we use our billions of years old evolutionary skills and thousands of years old cultural heritage to recognize and acknowledge the personal facts of our reality freedom and most important natural beliefs respect and speak the truth in reality even science itself is based on our personal knowledge only our false conceptual dichotomies paralyze our thinking god or matter there is a third choice the emergence of life and human persons this is the only way to defend our freedoms and the christian moral dynamism of free western societies

offers writing strategies and student activities for american history geography world history civics cover

have you ever faced a major roadblock in your life have you questioned whether your fight or flight responses would get you through a crisis this happened to the author brenda abercrombie when her counseling career ended and retirement was looming she felt as if she needed to learn to walk again her emotional crutches had served their purpose but now she had to learn to walk without crutches on a new path with god as her divine counselor she discovered the principles that would help her get past the roadblock the zoo of you is a book about her journey and the strategy she developed to transform defense mechanisms into life skills this book is packed with questionnaires and practical application exercises which will help you identify the skills you already possess and develop the ones you don t have yet the zoo of you provides you with a team of virtual animals to help you access these life skills you won t have to face your next challenge alone

making statistical modeling and inference more accessible to ecologists and related scientists introduction to hierarchical bayesian modeling for ecological data gives readers a flexible and effective framework to learn about complex ecological processes from various sources of data it also helps readers get started on building their own statistical models the text begins with simple models that progressively become more complex and realistic through explanatory covariates and intermediate hidden states variables when fitting the models to data the authors gradually present the concepts and techniques of the bayesian paradigm from a practical point of view using real case studies they emphasize how hierarchical bayesian modeling supports multidimensional models involving complex interactions between parameters and latent variables data sets exercises and r and winbugs codes are available on the authors website this book shows how bayesian statistical modeling provides an intuitive way to organize data test ideas investigate competing hypotheses and assess degrees of confidence of predictions it also illustrates how conditional reasoning can dismantle a complex reality into more understandable pieces as conditional reasoning is intimately

linked with bayesian thinking considering hierarchical models within the bayesian setting offers a unified and coherent framework for modeling estimation and prediction

certified personal trainer damien joyner not only explodes the myth that growing older means growing weaker he offers expert guidance and safe simple effective exercises to empower you to regain and maintain your strength and autonomy i m often asked the following question do you train active agers any differently than their younger counterparts in short i don t their programming is based on their fitness level rather than their age and just like their younger counterparts they too possess the potential to move better or become stronger too often society tells you as you age you ll become frail you ll lose your mobility it s time to slow down but at a time when nearly 50 million americans are aged 65 these assumptions are more harmful than ever especially because they re wrong joyner explains which exercises are the most important to prioritize for the movements you do every day whether that s standing up from a chair or getting groceries from the car into the cabinet his exercises are straightforward safe effective and evidence based clearly illustrated via helpful how to photo guides tailored to meet the concerns of active agers like improving bone density appropriate for beginner intermediate and advanced levels of fitness for keeping fit and doing real world everyday tasks that help you stay active and engaged as a fitness professional who specializes in training people who are 50 damien joyner s approach in move for life helps you build strength increase flexibility and work on your balance all while dispelling any doubts you may have about your ability to stay active after midlife
