first published in 1975 daily experience in residential life based on questionnaires completed by students during their residential placements breaks new ground with fresh implications for social work training and practice the author first examines daily life experiences of children in a wide range of residential provision with particular reference to methods of handling uncooperative children second to consider effective ways of enabling caregivers to provide helpful rather than neutral or even punitive daily treatment her findings suggest that children with similar needs differ greatly in the quality of care they receive and that variations particularly in methods of discipline and control depend less upon theoretical principles than upon their caregivers immediate pressures in practice therefore her major recommendation also applicable to children in foster care day school or at risk in their own homes and to dependent adults either at home or in institutional care is that the caregivers themselves require appropriate ongoing experience of professional support in their very difficult task

first published in 1989 interpreting residential life raises questions like a what makes residential

establishments tick b what is going on beneath the surface of the daily routine c why is change so difficult to create and even more difficult to sustain and d how can residential social workers evaluate their work james atherton provides a set of tools to enable residential workers to answer these questions in their own establishments simply and directly he provides a framework which shows how policy and practice relate to each other and reinforce or hinder each other in crises as well as in routines he examines the whole residential establishment as a social system concentrating on daily life within it and demonstrating how values are implicit in all aspects of practice he draws on the experiences of residential staff at all levels to uncover the working myths and offers ways of understanding how establishments function and indicates the pathways to change this is an essential read for students of social work and sociology

librarians and student affairs professionals share a commitment to student success and holistic development collaborative strategies and reflective practice environments for student success and development explores how librarians and student affairs professionals partner through programming and other activities in order to create stronger campus environments for student learning growth and development edited by lisa janicke hinchliffe and melissa autumn wong the book includes an introduction to student affairs and student development followed by case studies of successful collaborations co authored by student affairs and library professionals also included is a selected bibliography of publications on student affairs strategies for collaboration and library and student affairs collaborations
